INSTRUCTIONS TO CONTRIBUTORS

Preparation of Manuscript
Papers should be typewritten on sheets of uniform size with double spacing and wide margins. The top copy should be sent.

The title of the paper is typed on a separate sheet together with the name of the author with degrees and description, and the name and address of the hospital or laboratory. Unless otherwise indicated, proofs will be sent to the first author on the list if there is more than one. Only the smallest possible number of verbal corrections should be made in the galley proofs.

Tables and Illustrations
These should be separate from the manuscript and be as few as possible. Illustrations are referred to in the text as 'Figures' and numbered in Arabic numerals. Each figure and table should be accompanied by an explanatory legend which is typed separately.

Photographs, preferably glossy, should be sent unmounted with any lettering done on the photograph itself. X-rays should be sent as negatives. Tables and line drawings should be very clearly drawn out in black Indian ink on white paper. Tables, etc., should be marked on the back with the name of the author and title of the paper. Photographs are preferred not marked but if so only very lightly with a soft pencil. The top and bottom of X-rays and photographs should be marked.

References
The Harvard system will be followed after December, 1960. The name of the author and the date of the paper are given in the text. The list of authors is put alphabetically at the end of the article. Each reference listed should give: author's name, initials, year of publication of the paper (in brackets), title of paper, name of journal, volume and page number. If the author has written more than one paper in the year they are distinguished by the letters a, b, c, d, etc. References to books should give year of publication, place of publication and name of publisher, and if necessary, number of volume and page number. If there is more than one author all are mentioned initially in the text but subsequently the words 'and others' follow the first name.

Abbreviations for journals are those used in 'World Medical Publications' (published by B.M.A. for World Medical Association).

Papers published in the Journal become the copyright of the Journal and may not be reproduced elsewhere either in whole or in part without the permission of the Publishers.

The Editor reserves the right to make changes which may clarify or condense papers where this is considered desirable.
Books Received

The Editorial Board acknowledge with thanks receipt of the following volumes.
A selection from these will be made for review.

POSTGRADUATE MEDICAL SCHOOL OF LONDON

The Postgraduate Medical School is associated with Hammersmith Hospital. Its teaching is directed primarily to the training of teachers and specialists in general medicine, general surgery, anaesthetics, pathology and radiology and is based on advanced clinical studies, supplemented by conferences, lectures and discussions, with an emphasis on the scientific aspect of investigation and treatment. The organized work of the clinical department is concentrated into three university 10-week terms, starting in January, April and October, leaving the vacations for more intensive research work. Research students are accepted for training and practice in methods of clinical investigation. The ordinary practice of the hospital is continuous throughout the year, but those not familiar with the School are advised not to start work in vacation time. Comprehensive work in anaesthetics is provided suitable for
candidates for the D.A. or F.F.A. The work of the Department of Pathology includes a year's course for the university Diploma in Clinical Pathology, for which 16 students with previous pathology experience are selected. The hospital Departments of Radiology train doctors for the radiological diplomas. The Department of Obstetrics and Gynaecology, together with Queen Charlotte's and the Chelsea Hospitals, form the Institute of Obstetrics and Gynaecology. Many house officer and registrar posts are available in the appropriate departments.

For further information application should be made to the Dean, Postgraduate Medical School of London Ducane Road, London, W.12.

INSTITUTE OF BASIC MEDICAL SCIENCES
(Royal College of Surgeons of England)
The Institute co-operates with other specialist Institutes of the Federation in providing facilities for practical work and instruction in the basic medical sciences. Twice a year, beginning in January and September, there is a full demonstration and lecture course which is full-time and extends over a period of fifteen weeks. In addition, there are two revision courses a year of lectures only, which take place at the same time as the other course. Applications for this course can be accepted up to six weeks before the course begins. Fees: Demonstrations and lectures, £73 10s. od.; lectures only, £42 os. od. A two-months' course for Primary F.D.S. candidates is also held twice a year beginning in December and June. The course is full-time and the fee £36 15s. od.

For further information please apply to the Secretary, Institute of Basic Medical Sciences, Royal College of Surgeons of England, Lincoln's Inn Fields, London, W.C.2.

INSTITUTE OF CANCER RESEARCH
(Royal Cancer Hospital)
Postgraduate lectures and courses of instruction are held in biophysics for students studying for the M.Sc. degree in Biophysics, and for students studying for a Diploma in Medical Radiotherapy.

Enquiries should be made to the Dean, Institute of Cancer Research, Royal Cancer Hospital, Fulham Road, London, S.W.3.

INSTITUTE OF CARDIOLOGY
(National Heart Hospital)
Courses of instruction lasting 11 weeks are available in the autumn and summer terms for both full-time and part-time students; fees £36 15s. od. and £18 18s. od. respectively. Special short course January 23 to February 3; fee £18 18s. od.

Enquiries, and applications for admission to courses, should be addressed to the Dean, Institute of Cardiology, 35 Wimpole Street, W.1.

INSTITUTE OF DISEASES OF THE CHEST
(Brompton Hospital and the London Chest Hospital)
The Institute of Diseases of the Chest (Medical School of the Hospitals for Diseases of the Chest) is situated in the grounds of the Brompton Hospital, S.W.3.

Medical
Instruction in diseases of the chest including tuberculosis is conducted during three terms of ten weeks each year. It consists of clinical work in wards and out-patient departments, lectures and demonstrations. A whole-time programme is arranged for not more than 12 graduates each term, preferably those specializing in diseases of the chest. A larger number of graduates can be accepted for part-time study. If vacancies are available it may be possible to accept graduates for shorter periods of part-time study.

Surgical
Whole-time courses in chest surgery are conducted during three terms of ten weeks each. They include attendance at out-patient clinics, operating sessions, ward clinics, case demonstrations and discussions, and lectures, and are conducted partly at the Brompton Hospital and partly at the London Chest Hospital. They are intended as an introduction to thoracic, cardiac and oesophageal surgery. The fees are the same as those of the whole-time medical course.

Fees for whole-time course (Medical or Surgical) are £40 for one term and, for part-time courses £25 for one term or £10 for one month.

Radiology
Part-time instruction in radiology of the chest for trainee radiologists only is given each term. Fee £20 for one term.

Clinical demonstrations are given on Fridays at 5 p.m. Open lectures are given on Wednesdays at 5 p.m. during University Terms. Admission free.

For further general information application should be addressed to the Dean, Institute of Diseases of the Chest, Brompton Hospital, Fulham Road, S.W.3.

INSTITUTE OF DENTAL SURGERY
(Eastman Dental Hospital)
The Institute holds courses in orthodontics (full-time,
for one year), and in periodontology, conservative
dentistry, prosthetic dentistry, oral surgery, oral
pathology and children's dentistry (variable length, full-
and part-time). Refresher courses are arranged twice
yearly for general practitioners. Courses are also held
in conjunction with the Faculty of Dental Surgery of
the Royal College of Surgeons and are suitable for
candidates preparing for the final examination for the
Fellowship in Dental Surgery of the College. These
begin in April and October (lasting for approximately
eight months), fee £60, and in April and October there
are revision courses lasting eight weeks, fee £31 10s. 6d.
Special arrangements can be made for students requiring
courses of study and research experience not falling
within the scope of the courses listed above.

For further information apply to the Dean, Institute of
Dental Surgery, Eastman Dental Hospital, Gray's Inn
Road, London, W.C.1.

INSTITUTE OF LARYNGOLOGY AND
OTOLOGY
(Royal National Throat, Nose and Ear
Hospital)

There is daily clinical teaching throughout the year.
The theoretical aspects of the specialty and of the
basic sciences upon which it is founded are covered by
courses of lectures and demonstrations which are held
twice annually, commencing in February and August.
There are facilities for dissection as part of the course;
for appointments as clinical assistants in the associated
Hospital and for higher posts for advanced students.
Twice yearly there are advanced revision classes for
M.S. and F.R.C.S. students and practical revision
classes for Part II D.L.O. students. Short courses in
endoscopy, aural surgery, the deaf child and pathology
are arranged periodically.

For further information application should be addressed
to the Dean, Institute of Laryngology and Otology,
330 Gray's Inn Road, W.C.1.

INSTITUTE OF NEUROLOGY
(The National Hospital, Queen Square, and
the Maida Vale Hospital for Nervous
Diseases)
The teaching is mainly by attendance on the hospital
practice. Some advanced students are appointed as
full-time clinical clerks at the National Hospital, Queen
Square, or to the electro-encephalographic or one of
the other special departments, or to the research labora-
tories. A limited number of part-time clinical clerkships
are available at the Maida Vale Hospital with opportuni-
ty for examining patients.

In addition elementary neurology is taught in three
terms each of ten weeks. The syllabus deals with the
anatomy and physiology of the nervous system, methods
of examination, neuro-pathology, and neuro-chemistry;
and includes lectures and demonstrations on clinical
neurology (medical and surgical), psychological medicine
and ancillary subjects. While the lectures are arranged
to cover the whole year, the instruction in each term is
entirely inclusive and the section on clinical examination
is completely comprehensive in each term. Special
lectures by neurologists from outside London and from
abroad are held throughout these courses. Fees for
attending the full-time course of ten weeks, £40; for
attending hospital practice, £36 for three months or £70
for six months.

Courses on the technique and application of the electro-
encephalogram are given in the autumn and spring terms.
The fee for the course of ten weeks, £26 16s. 0d.

Part-time teaching is given in the Out-Patient Depart-
ment at the National Hospital, Queen Square, on five
days a week throughout the year (public holidays
excluded) and at Maida Vale Hospital.

Courses of clinical demonstrations are given on Wednes-
days and Saturdays at the National Hospital, Queen
Square. Fee for either course, £3 15s. 0d. Advertisement
ments concerning these appear from time to time in the
medical journals.

For further particulars please apply to the Dean, Institute
of Neurology, National Hospital, Queen Square, London,
W.C.1.
INSTITUTE OF OBSTETRICS AND GYNAECOLOGY

INSTITUTE OF OPHTHALMOLOGY
(Moorfields Eye Hospital)

Courses of lectures and classes beginning March 1 and
October 1 each year to meet the requirements of can-
didates entering for the examination for the Diploma in
Ophthalmology and other ophthalmological examinations
will be given by members of the staff of the Hospital and
Institute. Each course is designed to extend over two
terms of approximately 16 weeks each and is normally
divided into two parts.

Part I. Anatomy (including embryology and normal
histology), elementary physiology of the eye, optics
(elementary and physiological), practical tutorials in
refraction work and clinical subjects.

Part II. All clinical branches of the subject, together
with bacteriology and pathology. Students can attend
the daily clinical practice of the two branches of the
Moorfields Eye Hospital and hold the appointments of
Clinical Assistants concurrently with the above courses.
A composition fee of £31 10s. od. will admit students,
once to the lectures and tutorial classes of any one term,
with six months’ clinical practice in the hospital.

Royal Hospital and Maudsley Hospital)

The Institute is concerned with postgraduate education
in psychiatry and allied subjects, and with research. A
course of instruction covering up to three years, and
starting in October yearly, is provided for medical
practitioners who wish to specialize in psychiatry or to
prepare for the Diploma in Psychological Medicine.

Clinical instruction, which includes case conferences,
seminars, and practical experience in case-taking, is
given at associated hospitals in the mornings, and
systematic lectures and demonstrations are arranged for
the afternoons. Students may also enrol for shorter
periods or for single series of lectures.

The subjects covered include anatomy and biochemistry
of the nervous system, neurophysiology, pathology of
nervous and mental diseases, psychiatry of children and
adults, delinquency, principles of psychotherapy,
forensic psychiatry and criminology, psychology, mental
testing and statistics. There is a special six months’
course in child psychiatry, comprising clinical instruc-
tion and lectures, which starts on October 1. Lectures
on subjects of special interest are arranged from time
to time. The tuition fee for a full year’s course is
£66 8s. od. including enrolment fee. For shorter
periods the fee varies with the type of course chosen.
Selected students are eligible for appointments on the
staff of the Joint Hospital.

DUBLIN

University College

The following courses will be held during the session 1960-61:

D.P.H. Course. One academic year of whole-time study. Examinations June and September.
EDINBURGH
Edinburgh Postgraduate Board for Medicine
Surgery. Three months' courses of postgraduate surgery suitable for surgeons requiring a refresher course in the current outlook on general surgery or for graduates preparing to specialize in surgery, start on February 27 and September 25, 1961. The programme has been arranged so as to provide co-ordinated clinical and systematic instruction in general surgical wards and specialized surgical units in Edinburgh. Fee £37 12s. 6d.

Medical Sciences. Three 12-weeks' courses in the basic medical sciences (anatomy, physiology, pathology, including bacteriology) are organized each year. These courses comprise lectures, demonstrations and practical instruction. Courses commence in January, April and September. The fee is £37 12s. 6d., which includes matriculation.

Internal Medicine. Courses lasting 12 weeks, suitable for graduates wishing a refresher course, or to specialize in medicine, will begin on March 20 and September 25, 1961. These courses consist of 320 hours' instruction, comprising lectures, clinical demonstrations and ward visits. Fee £37 12s. 6d.

Additional instruction in clinical paediatrics and tropical medicine is arranged in conjunction with the course in medicine, for which there is a small fee; the numbers are limited.

The Royal College of Physicians of Edinburgh award two Hill Pattison-Struthers Bursaries each year to graduates attending the Internal Medicine course. Each Bursary amounts to £100. Applications must be submitted to the Secretary, Royal College of Physicians of Edinburgh, before December 12, 1960, for those attending the March, 1961, course.

Applications for enrolment should be addressed to the Director of Postgraduate Studies, Surgeons' Hall, Edinburgh 8, supplying particulars of qualifications and postgraduate experience.

Royal Medical Society
The meetings of the Society are held in the Society's Hall on Friday evenings during the Autumn and Spring Terms. Meetings consist of Private Business (at 7 p.m.) and Public Business (at 8 p.m.) in which dissertations by members or addresses by prominent medical men on subjects of medical interest are given. Clinical meetings are held periodically in the Royal Infirmary and film shows of the latest medical films are given in the Society's Rooms. Prospective members will be welcomed on any Friday evening in the Society's Hall before public business.

Applications for further information should be addressed to the Secretary, Royal Medical Society, 7 Melbourne Place, Edinburgh, 1.

GLASGOW
Glasgow Postgraduate Medical Education Committee
The following courses are held annually:

Surgery. An intensive course of instruction in the basic sciences suitable for candidates preparing for the Primary Fellowship Examination in Surgery is held from October to December. A modified form of the course is available for candidates preparing for the D.A. or F.P.A. Examinations. Fee £30.

An intensive course on Current Trends in Surgery is held for a fortnight in September and October. It is suitable as a revision course for candidates preparing for the Final Fellowship Examination in Surgery or as a refresher course for surgeons. Fee 15 guineas.

Medicine. An intensive course on Recent Advances in Clinical Medicine suitable for candidates preparing for the Final Fellowship qua Physician or Membership Examination is held twice annually for a fortnight in March and September. Fee 15 guineas.

Mental Deficiency. An intensive course in Mental Deficiency is held for three weeks in October. The course includes lectures and demonstrations in mental handicap and deficiency, instruction in mental testing and visits to institutions. Fee £18.

Isotopes. Courses of instruction in the application of radioactive isotopes to medical and biological research are held for two weeks in March and September. The courses are designed for research workers in universities, hospitals and in industry. Fee 20 guineas.

Clinical Attachments. A scheme of clinical attachments in general medicine, general surgery and various specialties has been arranged to assist those working for higher qualifications. An attachment may be started at any time. No formal instruction is given, but participants may gain intensive clinical experience by following the day-to-day work of a unit in a Glasgow teaching hospital. Fee £5 per month.

Teaching Ward Rounds. Each academic term a course of ten teaching ward rounds in Medicine is arranged. These occupy one afternoon a week. Fee 5 guineas.

G.P. Courses. Two Refresher Courses for general practitioners are held annually—for a fortnight in May and for a week in September.

A week's course in Dermatology for general practitioners is also held annually in late June.

Full-time Courses. The Committee offers full-time postgraduate courses in Radiology (two years) and Radiotherapy (two years).

The University offers full-time postgraduate courses leading to the following diplomas:

Diploma in Public Health (one year)
Diploma in Clinical Psychology (two years).

Conferences. Specialist conferences on various topics are held twice per year in the Hall of the Royal Faculty of Physicians and Surgeons. In these, invited guests and local speakers discuss current topics and time is provided for audience participation. These conferences are designed particularly for consultants and registrars. Next conference, November 30 to December 2, on 'Accident Surgery'.

Further information and application forms can be obtained from the Commander of the Postgraduate Medical Education Committee, The University, Glasgow, W.2.

LIVERPOOL
University of Liverpool
Postgraduate Courses
Medicine. A part-time course for M.R.C.P. candidates is held in the Autumn and Lent Terms—two sessions per week, one clinical and one lectures. Course fee £5 5s. od. per term.

Surgery. A full-time course of one year is open to candidates who have already completed the Primary
examination of one of the Royal Colleges of Surgeons or undertaken postgraduate study in anatomy and physiology. On completion of the course, students become eligible to take the degree of Master of Surgery (Ch.M.), provided they are graduates of an approved university or otherwise comply with the regulations. The course begins in September. Course fee £50.

Orthopaedic Surgery. A full-time course of 12 months leading to examination to the degree of Master of Orthopaedic Surgery (M.Ch.Orth.) is open to all medical graduates of approved universities, and graduates in other faculties with qualifications in medicine, who hold a Fellowship of one of the British Royal Colleges of Surgeons or its equivalent. The course normally begins in January. Course fee £100.

Radiology. A full-time course of two academic years leading to a Diploma in Medical Radiology, D.M.R.(D) or D.M.R.(T), is open to medical graduates of approved universities and to candidates who hold approved higher medical diplomas and a degree in a faculty other than the Faculty of Medicine. The course allows a candidate to hold suitable approved hospital appointments during the second year and covers the regulations of the Conjoint Board. The course begins in October. Course fee £63.

Public Health. A full-time one-year course leading to the Diploma in Public Health (D.P.H.) is open to candidates with a medical qualification from an approved medical school or licensing body. A period of not less than two years should elapse between the date on which any practitioner is fully registered and the date on which he becomes eligible to present himself for admission to the examination for the Diploma. All courses of instruction begin in October. Course fee £60.

Tropical Medicine and Hygiene. A full-time three-month course in the Liverpool School of Tropical Medicine leading to the Diploma in Tropical Medicine and Hygiene (D.T.M. & H.) is open to candidates with a medical qualification from an approved medical school or licensing body. Courses begin in September and January. Course fee £52 10s.

Anaesthesia. A full-time course of postgraduate instruction limited to 12 students begins in October and lasts for one year. The course combines instruction in the practical administration of anaesthetics with lectures and demonstrations in anatomy, physiology, pathology, physics, pharmacology, medicine, and surgery, and anaesthesia. For the purpose of gaining practical experience, the students are found suitable appointments in recognized general hospitals within the Liverpool area. Course fee £75.

Psychological Medicine. A part-time course begins in January and extends over two years. It is divided into two parts corresponding to the two parts of the examination for the Diploma in Psychological Medicine awarded by the Examining Board in England (R.C.P., London, and R.C.S., England). The course is also suitable for those intending to take the degree of Doctor of Medicine by examination in Psychological Medicine, as provided for under Ordinance XLVII, Case 3. Part I provides instruction in (a) anatomy (macroscopic and microscopic) and physiology of the nervous system, and (b) psychology. Part II deals with (a) clinical neurology and neuropsychiatry, (b) psychological medicine, including general psychiatry, psycho-neuroses, mental deficiency, child psychiatry, forensic psychiatry and social psychiatry. Both parts of the course will be held simultaneously. Students may join a course at the beginning of any of the three University terms and enrol for either part separately, but, except in special circumstances, will not be permitted to take both parts concurrently. Applications to attend for a special subject in Part II of the course (e.g. mental deficiency) will be considered individually. Course fee £70.

Biochemistry. A special course in biochemistry in relation to nutrition is held for candidates for the Diploma in Public Health. An advanced course in general biochemistry for the degree of B.Sc. with Honours is also provided. This course is open to students in science and in special cases to students in medicine. Graduates with the necessary training in biochemistry who wish to engage in research work will be afforded accommodation and every assistance in the prosecution of their researches.

Venerology. A three-month course in venerology leading to the V.D. Officer Certificate is conducted at times to be arranged. The course is open to medical practitioners and the University empowers the issue of certificates to candidates who have satisfactorily attended the course and passed the required examination. Candidates studying for this certificate are eligible to make application to take concurrently a course for the V.D. Pathologist Certificate. The accommodation available will only permit a limited number being accepted for the course. Fee £52 per course.

Applications for further information should be addressed to the appropriate department of the University, Liverpool, 3.

MANCHESTER
University of Manchester
Faculty of Medicine. Courses are offered for the following diplomas which are granted by the University: Psychological Medicine, Public Health, Bacteriology and Medical Statistics.

Clinical assistantships may be arranged in various specialties, and Sunday morning ward rounds for general practitioners are held at a number of hospitals in the region.

In conjunction with the North-West England Faculty of the College of General Practitioners the following courses will be held on alternate Sunday mornings during the Michaelmas Term:

1. Lecture-demonstrations for general practitioners (commencing October 2).
2. Ward rounds at the Royal Manchester Children's Hospital, Pendlebury (commencing October 9). (Places for the ward rounds will be limited and must be reserved in advance.)

Inquiries should be addressed to the Dean of the Medical School, The University, Manchester 13.

NEWCASTLE
The Medical School, King's College
(University of Durham)

Public Health. A part-time course is held for the D.P.H. The course occupies five terms, two-and-a-half days each week being occupied in whole-time study, leaving the remainder of the time free for remunerated employment. Several suitable part-time hospital posts in the area are available to candidates attending the course. The course is held biennially and the next complete course will begin in January 1961.

Psychological Medicine. Courses for the D.P.M.
(Dunelm) are held as follows: Part I, part-time course extending over two terms and beginning October. Part II, part-time course extending over four terms also beginning in October. Part I and Part II may be taken together.

For further information application should be made to the Assistant Registrar, Medical School, King's College, Newcastle upon Tyne.

HOSPITAL APPOINTMENTS IN FRANCE

The Collège de Médecine des Hôpitaux de Paris has made arrangements whereby young doctors from other countries can obtain junior hospital appointments in Paris hospitals.

The posts can be held for between one and three years. The salararies and allowances paid are those given to French 'internes'.

Candidates must have passed their qualifying examinations in medicine and had two or three year's experience. They must also have a good knowledge of French.

Applications are now being invited for appointments for the academic year beginning October 1, 1961. Further details and application forms can be obtained from the Scientific Office, French Embassy, 22 Wilton Crescent, London, S.W.1.

LONDON MEDICAL EXHIBITION

November 14 to 18 inclusive, at the Horticultural Hall, Westminster.

CONFERENCES, PRIZES, Etc.

Riker Fellowship in Pharmacology. The first Fellowship has been provided since 1954, and commencing the next academic year two will be awarded annually. The Fellowships provide a grant of £1,000 for one year of postgraduate study in pharmacological laboratories in Great Britain. Two similar Riker Fellowships are available in the United States. The Fellowships are awarded and administered by the International Council of Pharmacologists in association with the British Pharmacological Society and other pharmacological societies affiliated with the International Council. The Fellowships aim to provide opportunities for graduates to pursue research abroad, thus one of the conditions of their award is that pharmacologists are not eligible for Fellowships tenable in their country of residence. Full particulars from Riker Laboratories Ltd., Morley Street, Loughborough, Leicestershire.

Only qualified medical practitioners may become Members of the Fellowship of Postgraduate Medicine. Instruction arranged by the Fellowship of Postgraduate Medicine is open only to Members on payment of the requisite fees. Postgraduates (whether Members or not) are not automatically included in the mailing lists, but must notify the Fellowship of Postgraduate Medicine if they wish to be sent syllabuses as published, and must specify the subjects in which they are interested. Information regarding courses can be obtained from the Office, Monday to Friday between 10 a.m. and 5 p.m. Telephone: CHANCERY 6900.

A. I wish to become a Member of the Fellowship of Postgraduate Medicine; annual subscription 21s. od. (if syllabuses of courses are required, please state subjects of interest).

B. I wish to subscribe to the monthly POSTGRADUATE MEDICAL JOURNAL; annual subscription 63s. post free. (All subscriptions from month of joining unless otherwise requested. Banker's Order form for subscriptions to the JOURNAL are obtainable on application.)
