

Swann-Morton Surgical Blades

**...chosen by
leading surgeons-
the world over!**

All the nine universally accepted shapes are included in the Swann-Morton range of surgical blades, together with five additional shapes developed at the request of the medical profession. All are available either in stainless or carbon steel.

Automatic Ventilation of the Lungs

W.W. Mushin M.A. M.B. B.S. F.F.A.R.C.S.,
L. Rendell-Baker M.B. B.S. F.F.A.R.C.S.,
P.W. Thompson M.A. M.B. B.Chir. F.F.A.R.C.S.
and W.W. Mapleson D.Sc. F.Inst.P.

The two previous editions of this book established it as a standard work of reference on the subject. The widening interest, developments in technology and new techniques of clinical care have led to another complete revision. This includes more than seventy new ventilators from all parts of the world together with updating of all other sections.

Third Edition, 1980. 904 pages, 515 illustrations
£37.50

*From the reviews of the
Second Edition*

'This book is a must for departmental libraries.' *British Medical Journal*

'It is clearly written and well illustrated, and as a reference text on automatic ventilators should be on the shelves of all anaesthesia and intensive care libraries.' *The New England Journal of Medicine*

'All medical and, in particular, anaesthetic libraries will be incomplete unless this book is on their shelves.' *British Journal of Diseases of the Chest*

Blackwell Scientific Publications

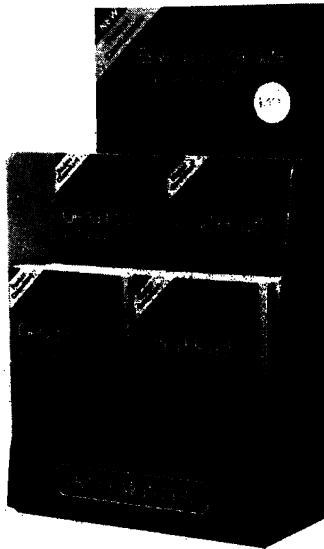

**Pocket
Consultants**

Pocket Consultants

'The series Pocket Consultants has the laudable aim of providing a vade mecum for each hospital speciality' **Lancet**
