AUSTRALIAN DRIED FRUITS

MAY CONFIDENTLY BE RECOMMENDED AS
WHOLESOME, APPETISING,
SUSTAINING FOOD

ARMY MEDICAL LIBRARY
MAR 20 1934
WASHINGTON, D. C.

Australian Sultanas and Currants are notable for their goodness and nourishing qualities. They are rich in fruit sugar, and contain mineral constituents of a valuable character.

These fruits are simply sweet, toothsome grapes, ripened and dried in vitalising sunshine, and packed in a scientific and hygienic manner. They retain the healthful qualities of the grape, and are free from injurious chemicals.

We bring these Australian fruits to your notice because they are good food, deserving of the most widespread use.

There is, of course, the further consideration that the use of Australian products provides a living for British settlers, and if extended, would enable the Commonwealth to take more British migrants, thus relieving unemployment and taxation here at Home.

We would appreciate your help in this important matter.
