(New Series)

FEBRUARY, 1935.

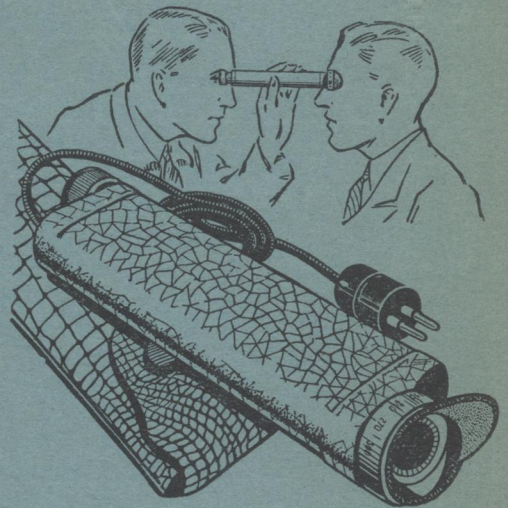

Monthly. Price 2s. net.

"The Little More and how much it is!"

Probe every path! When in doubt check your diagnosis by a routine examination of the Fundus with the

EMESAY REFLEXLESS OPHTHALMOSCOPE

This new instrument entirely eliminates any corneal reflex thus ensuring a perfect picture EVEN THROUGH A SMALL PUPIL. The G.P. by such routine can often establish the existence of disease before other symptoms become manifest. This new ophthalmoscope allows such an examination even at the bedside of recumbent patients.
