## In Pernicious and Post-operative Anæmias

A palatable liquid extract  
of hog's stomach  
containing *Hæmopoietin* in  
stable solution.

The stomachs are treated immediately after killing  
to extract the *Antianæmic Factor in active condition*  
producing a bland liquid of pleasant flavour —  
HOGASTRIN.

A dose of two teaspoonfuls in a little water three  
times a day for a fortnight, then reduced to one  
teaspoonful, will invariably give good results in the  
treatment of all *Macrocytic Anæmias*.

Packed in 4 oz., 8 oz. and 16 oz. bottles.

SECRETARY at the Institute.

**Improved Menthol Treatment**

For Hay Fever

Colds & Catarrhal Affections

**"CORYLAC" (ROGERS)**

TO BE USED IN

**ROGERS' POCKET**

**NEBULIZER**

The characteristic symptoms of Nasal Catarrh, Coryza, etc., are promptly relieved by the application of Corylac. The nose at once becomes freer, the head feels better, the eyes become brighter and feel as if relieved of a heavy burden; the profuse secretion, as well as the nasal obstruction and the sense of dryness in the throat, disappear.

Corylac (Rogers) is supplied at 2/-. Rogers' Pocket Nebulizer at 5/6 each, complete as illustrated: both are manufactured only by

## MISCELLANEOUS.—Contd.

samples to be sent, by their direction, to patients to whom coarse astringent tea is strictly forbidden.

It is this, in conjunction with the unvarying high quality of our speciality, that has built up our big business.

The manufacture and distribution in Great Britain of Dr. Lettermann's Foot Supports is now controlled by **Allen and Hanburys** Messrs. Allen and Hanburys. They have recently issued a useful booklet dealing with the treatment of foot and walking troubles by means of a physiological corrective system which has been devised by Dr. A. Lettermann. The following is an extract from a report by Dr. Hans Scherer, of the

Retailers' Association Accident Institution : "The very first supports supplied to me by Dr. Lettermann in March, 1929, had such good results that I ordered them further for the members of the Association suffering from accidents. And now, having in the course of 2½ years ordered 633 pairs of foot supports, I think I may be permitted to express an opinion regarding the quality or the curative action of the foot supports . . ." "All statically caused pains are at once abolished in about 86 per cent. of the cases, and the patients are delighted by the great relief which they observe on walking . . ."

Only in three of the 633 cases mentioned was no satisfactory effect obtained by the foot supports ordered.
