# CLINICAL SCIENCE

*Editor: G. M. BULL*

This journal, the successor to Sir Thomas Lewis's journal *Heart*, was founded in 1933. Since then it has published papers dealing with the results of original works in all fields of clinical investigation, on all aspects of medical physiology, by research workers throughout the world.

From February 1961, *Clinical Science* will be published by the Cambridge University Press for the Medical Research Society and the Biochemical Society jointly. The journal will continue to publish original work in all fields of clinical investigation, but with the sponsorship of the Biochemical Society, it will include a higher proportion of papers dealing with the metabolic and biochemical aspects of clinical research.

The journal will be published in two volumes of three parts annually in future. Subscriptions will be £4 per volume (U. S. A. \$13.50) or £8 (\$27.00) per year. Single parts will also be available at 30s. (\$5.00) each, plus postage. Orders may be sent through a bookseller or subscription agent, or direct to **Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1**. Subscribers living in the U. S. A. should send their orders to Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N. Y., U. S. A.

### HOSPITAL APPOINTMENTS IN FRANCE

The Collège de Médecine des Hôpitaux de Paris has made arrangements whereby young doctors from other countries can obtain junior hospital appointments in Paris hospitals.

The posts can be held for between one and three years. The salaries and allowances paid are those given to French 'internes'.

Candidates must have passed their qualifying examination in medicine and had two or three year's experience. They must also have a good knowledge of French. Applications are now being invited for appointments for the academic year beginning October 1, 1961. Further details and application forms can be obtained from the Scientific Office, French Embassy, 22 Wilton Crescent, London, S.W.1.

### ANGLO-FRENCH MEDICAL EXCHANGE BURSARIES

Applications are now invited for the 1961 French bursaries. These awards, which are offered by the Institut National d'Hygiène, are tenable at any hospital or research institute in France. The value of the bursary is 870 N.F. (about £63 per month, tax free). Awards are normally made for periods of between two and four months. In addition, each bursar receives a grant of £15 towards his travelling expenses. Information about work in progress in France can be obtained from the Scientific Office, French Embassy, 22 Wilton Crescent, London, S.W.1. Requests for application forms should be sent to the Director, The Ciba Foundation, 41 Portland Place, London, W.1. The closing date for applications is January 31, 1961.

### CONFERENCES, PRIZES, Etc.

**The Harveian Society of London.** 11 Chandos Street, Cavendish Square, W.1. Wednesday, January 18. Annual General Meeting. Presidential Address by Terence E. Cawthorne, F.R.C.S.

**Riker Fellowship in Pharmacology.** The first Fellowship has been provided since 1954, and commencing the next academic year two will be awarded annually. The Fellowships provide a grant of £1,000 for one year of postgraduate study in pharmacological laboratories in Great Britain. Two similar Riker Fellowships are available in the United States. The Fellowships are awarded and administered by the International Council of Pharmacologists in association with the British Pharmacological Society and other pharmacological societies affiliated with the International Council. The Fellowships aim to provide opportunities for graduates to pursue research abroad, thus one of the conditions of their award is that pharmacologists are not eligible for Fellowships tenable in their country of residence. *Full particulars from Riker Laboratories Ltd., Morley Street, Loughborough, Leicestershire.*
