

New— 'Neosporin' Eye Drops

for bacterial eye infections

Containing polymyxin B sulphate, neomycin sulphate and gramicidin, 'Neosporin' Eye Drops can be used routinely for the prevention and treatment of conjunctivitis, blepharitis and virtually all other bacterial eye infections.

Comprehensive bacterial spectrum

Effective against *Ps. pyocyanea*

Bactericidal

Pack designed to minimise contamination of the preparation

Bland and non-irritant, rarely sensitises.

'Neosporin'^{brand} Eye Drops (Sterile)

Issued in special dropper tubes of 5 ml.

Burroughs Wellcome & Co., London

RESPIRATION PHYSIOLOGY

Editor: P. DEJOURS, Paris

Honorary Editor: W. O. FENN, Rochester, N.Y.

Editorial Board: E. AGOSTONI, *Ferrara*; E. ASMUSSEN, *Copenhagen*; H. BARTELS, *Hannover*;
D. J. C. CUNNINGHAM, *Oxford*; L. FARHI, *Buffalo, N.Y.*; F. KREUZER, *Nijmegen*; J.
PIPER, *Göttingen*; M. TENNEY, *Hanover, N.H.*; J. WEST, *London*; T. YOKOYAMA, *Tokyo*.

Contents of Vol. 2 No. 3:

- C. LENFANT and K. JOHANSEN: Respiratory adaptations in selected amphibians
- C. ALBERS and K. PLESCHKA: Effect of temperature on CO₂ transport in elasmobranch blood
- R. GREENBAUM, J. F. NUNN, C. PRYS-ROBERTS and G. R. KELMAN: Metabolic changes in whole human blood (*in vitro*) at 37°C
- H. E. REFSUM and B. M. KIM: Relationship between the acid-base changes of arterial plasma during acute changes of the CO₂ tension *in vivo* and the hemoglobin concentration of the blood
- L. R. ADAMS and I. FATT: The diffusion coefficient of human hemoglobin at high concentrations
- F. H. ADAMS, D. T. DESILETS and B. TOWERS: Control of flow of fetal lung fluid at the laryngeal outlet
- J. S. MILLEDGE and S. LAHIRI: Respiratory control in lowlanders and sherpa highlanders at altitude
- S. LAHIRI and J. S. MILLEDGE: Acid-base in sherpa altitude residents and lowlanders at 4880 m
- R. FLANDROIS, J. R. LACOUR, J. ISLAS-MAROQUIN and J. CHARLOT: Limbs mechanoreceptors inducing the reflex hyperpnea of exercise
- S. C. GLAUSER, E. M. GLAUSER and B. F. RUSY: Gas density and the work of breathing
- R. M. MENDENHALL, A. L. MENDENHALL, Jr. and J. H. TUCKER: Bubbles lined with lung alveolar surfactant
- R. M. MENDENHALL, C. N. SUN and A. L. MENDENHALL, Jr.: Lung alveolar surfactant and the Thomson - Marangoni effects
- J. G. JONES: The effect of preinspiratory lung volume on the result of the single breath O₂ test
- G. CUMMING, K. HORSFIELD, J. G. JONES and D. C. F. MUIR: The influence of gaseous diffusion on the alveolar plateau at different lung volumes

Bi-monthly. Subscription price per
volume of approx. 400 pages 110s.

Proceedings of the Seventh Canadian Cancer Conference

held at

Honey Harbour, Ontario, 1966

The conference revealed once again the exciting advances which are currently being made in understanding life at the cellular level, and at the same time indicated even more clearly, how much remains to be learned about how healthy cells reproduce and differentiate in a biologically acceptable manner.

Partial Contents: L. G. LAJTHA — Stem cells and their properties; G. J. V. NOSSAL and A. ABBOT — Antigen — induced proliferation amongst lymphoid cells; P. R. GROSS — Protein synthesis, mitosis and differentiation; H. J. VOGEL — A common molecular basis for enzyme repression and induction; G. M. TOMKINS — Biological regulation by steroid hormones; C. HEIDELBERGER — Some reflections and speculations about chemical carcinogenesis; G. F. WHITMORE and S. GULYAS — Recovery processes in X-irradiation mammalian cells; H. D. SUIT — Effects of radiation on tumours in animals.

440 pages £6/\$17.50

The Evolution of the Microscope

S. Bradbury

By means of illustrations, questions and discussions the author dearly demonstrates the problems and stages in the development of the microscope, concentrating on its use in biology.

The book will be of great interest to students and workers in optics and biology, and should help them to understand the rationale of the design features found in current microscopes.

368 pages 80s/\$12.50

Medical Electronic Laboratory Equipment 1967-68

Edited by **G. W. A. Dummer** and **J. M. Robertson**, *Royal Radar Establishment, Malvern*

This new volume in the Pergamon Electronics Data series describes the wide range of specialized medical equipment now available to members of the medical profession. The equipment, on which comprehensive data is given, includes: lasers, monitoring systems, oscilloscopes, pupillography equipment, rate meters, stimulators, spirometers, temperature controllers, thyroid function systems, x-ray activators, etc.

1,050 pages £10

Ganglion-Blocking and Ganglion-Stimulating Agents

D. A. Kharkevich, *Institute of Pharmacology and Chemotherapy, Moscow*

This monograph, dealing with individual aspects of the pharmacology of substances acting on ganglia, will be of primary interest to pharmacologists, synthetic chemists and clinicians.

380 pages 90s./\$14.00

New Aspects of the Mental Health Services

Edited by **H. Freeman**, *Salford Royal Hospital*, and **J. Farndale**, *City of Westminster College, London*

A sequel to 'Trends in the Mental Health Services' by the same editors, this collection of papers reviews important trends which have developed since 1963. *Westminster Series Vol. 8*

**WANTED
for Hay Fever**

An Antihistamine giving Rapid Relief—sustained for 19-24 hours on one tablet a day—with a low incidence of side-effects.

FOR SALE
'Pro-Actidil' Trade Mark

The Versatile Antihistamine Each tablet contains 10mg. triprolidine hydrochloride specially formulated to provide rapid yet prolonged antihistaminic action. Recommended for adults and children over ten years.

ROTER

IN PEPTIC DISORDERS

does more than just relieve pain

Each tablet contains: Bismuth
Subnitrate Roter (350 mg.),
Magnesium Carbonate (400 mg.),
Sodium Bicarbonate (200 mg.) and
Cortex Rhamni Frangulae (25 mg.).

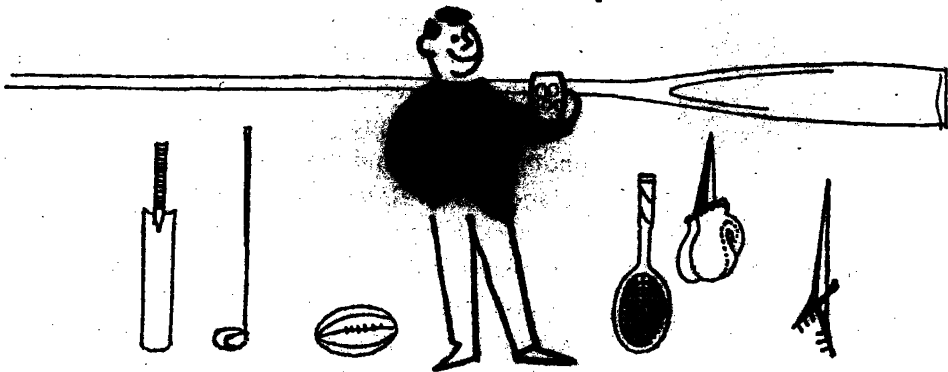

Packings: Tins of 40 and 120, also
dispensing sizes, 360 and 720
(P.T. exempt).

ROTER tablets quickly overcome the pain and discomfort of minor gastric disturbances, but their true value is most evident in their control and frequent healing of peptic ulcer in both the early and the advanced or chronic stages. With Roter therapy, hospitalisation or surgery is mostly avoided; the patient remains ambulant and uncommitted to a restricted or prescribed diet; and recurring medical attention is usually obviated. Roter is worth remembering for your "gastric" patients.

Literature will be supplied on request from :-

F.A.I.R. LABORATORIES LTD., TWICKENHAM, MIDDLESEX.

A cricket player has his bat
A boxer has his gloves
A wet bob has a wooden oar
A tennis type his loves
A rugger man can have a try
A golfer has his clubs
A runner has some spiky shoes
A drinker has his pubs
But whether you are qualified
Or still a hard worked student
There's one thing that you ought to have
if you are wise and prudent

. . . and that's a policy with

HAEMOPHILUS INFLUENZAE

Its Clinical Importance

David C. Turk, D.M.(Oxon), M.R.C.P.(Lond.), M.C.Path.;
Senior Lecturer in Microbiology, Department of Microbiology, University of Newcastle upon Tyne; Hon. Consultant in Microbiology, United Newcastle upon Tyne Hospitals, and

J. Robert May, M.D.(Cantab.), F.C.Path.;
Reader in Bacteriology, Institute of Diseases of the Chest, Brompton, London; Hon. Consultant in Experimental Bacteriology, Brompton Hospital.

Extract from THE LANCET leading article Feb., 1967:

"A clear, critical and authoritative account of *H. influenzae* in all its diverse and complex roles. This is a review that no clinician or bacteriologist can afford to disregard, and the many unsolved problems should, as TURK and MAY hope, arouse curiosity and provoke investigation."

MEDICAL CORRESPONDENCE COLLEGE

Are you preparing for a
**MEDICAL OR
SURGICAL EXAMINATION ?**

Do you wish to coach in any branch
of Medicine or Surgery ?

- * The activities of the Medical Correspondence College cover many departments of Medical, Surgical, and Dental tuition.
- * Desultory reading is wasteful for examination purposes.
- * The secret of success at examinations is to concentrate on essentials.
- * First attempt success at examinations is the sole aim of our courses.
- * Concentration on the exact requirements is assured by our courses.
- * Our courses are up to date and frequently revised.

Write to The Secretary P.G. 19, Welbeck Street, London, W.1., to see if we have a course for your examination.
