Festschrift for Sir John McMichael

John McMichael	5
C. E. NEWMAN	
Oliver and Schäfer's discovery of the cardiovascular action of suprarenal extract	6
H. BARCROFT AND J. F. TALBOT	
Some studies on inherited disease using the techniques of cell culture	9
A. G. BEARN	
Enteropoiesis: structural and functional relationships of the enterocyte	12
C. C. BOOTH	
Distribution of diffusing capacity in obstructive lung disease	16
WILLIAM A. BRISCOE	
The Cheshire Cat syndrome	19
E. G. L. BYWATERS	
Some recent advances in adrenal diagnosis	23
C. L. COPE AND D. MATTINGLY	
Studies on the action of bronchial muscle	26
JOHN CROFTON	
The formation of collaterals	28
C. T. DOLLERY	
Studies on the metabolism of angiotensin.	31
AUSTIN E. DOYLE	
Forearm blood flow and heart rate after haemorrhage	35
O. G. EDHOLM AND J. D. HATCHER	
The spatial vectorcardiogram in diagnosis	39
D. EMSLIE-SMITH AND K. G. LOWE	
Renal disease in pregnancy	45
K. F. FAIRLEY AND PRISCILLA KINCAID-SMITH	
Research into bronchitis and emphysema	48
C. M. FLETCHER, N. L. JONES AND E. J. M. CAMPBELL	
Standard procedures for assessing hypersecretion or secretory capacity for human growth hormone, using the radioimmunoassay	53
RUSSELL FRASER AND A. D. WRIGHT	
Total fasting in the treatment of obesity	58
I. C. GILLILAND	
Mitral regurgitation in congestive cardiomyopathy	62
J. F. GOODWIN	

Contents continued overleaf

CONTENTS (*continued*)

Some aspects of the long-term treatment of severe hypertension with methyldopa M. HAMILTON	66
Iodine balance in man MICHAEL T. HARRISON	69
John McMichael's multisystem interests D. GERAINT JAMES AND O. P. SHARMA	71
Acute tubular insufficiency A. M. JOEKES	75
The Epping Jaundice after two years HARRY KOPELMAN	78
The value of praecordial pulsations in the diagnosis of heart disease PATRICK MOUNSEY	81
The regulation of cholesterol metabolism N. B. MYANT	86
The systolic murmur in hypertrophic obstructive cardiomyopathy and the nature of the obstruction M. NELLEN AND M. S. GOTSMAN	89
A modified index of phosphate excretion B. E. C. NORDIN AND L. BULUSU	93
The Achilles tendon reflex as an index of thyroid function GEORGE NUKI AND R. I. S. BAYLISS	97
Recent trends in acute viral hepatitis STUART J. SAUNDERS	102
A 'burnt-out' case of sarcoidosis J. G. SCADDING	105
Hepato-lienal fibrosis without cirrhosis: non-cirrhotic intrahepatic portal hypertension SHEILA SHERLOCK	109
The management of the coronary crisis J. P. SHILLINGFORD	111
Failure of folic acid to influence mortality of rats with acute tubular necrosis caused by mercury I. TARABA AND G. M. BULL	116
Synalbumin insulin antagonism J. VALLANCE-OWEN	117
Regional differences in the lung JOHN B. WEST	120
The papers of John McMichael	123
