Postgraduate Medical Journal is published monthly for the Fellowship of Postgraduate Medicine by Blackwell Scientific Publications Ltd. The annual subscription is 120s (\$20.00) post free, and the price of single issues 15s (\$2.50) postage extra. Orders for back issues published up to December 1966 and correspondence from Fellows and Associates should be sent to Mrs H. Seaman, Secretary, The Fellowship of Postgraduate Medicine, 9 Great James Street, London, W.C.1 (tel: CHAncery 6900); other orders and business correspondence should be addressed to Blackwell Scientific Publications Ltd, 5 Alfred Street, Oxford (tel: Oxford 40201).

All editorial correspondence should be addressed to Dr A. A. G. Lewis, The Postgraduate Medical Journal, 9 Great James Street, London, W.C.1 (tel: CHAncery 6900).

Advertisement enquiries and bookings should be addressed to S. & H. Fretwell Ltd, 267 Portland Road, London, S.E.25 (tel: ADDiscombe 8921/2).

The Fellowship of Postgraduate Medicine was founded by a group of London consultants after the First World War to assist postgraduates, particularly those coming to London from the Commonwealth, to pursue their studies. The Fellowship first published the *Postgraduate Medical Journal* to give infor-

mation about lectures, conferences and courses and to provide a monthly review of all branches of medicine.

Postgraduate Medical Journal publishes original papers on subjects of current clinical importance and welcomes review articles with extensive, up-to-date bibliographies as guides to further reading. Several symposia are published every year, each devoted to a single subject and written, by invitation, by specialists in different disciplines. Every issue includes authoritative Current Surveys of clinical problems, as well as well-documented Reports of cases of particular interest, Book Reviews and Postgraduate News.

A 'Notice to Contributors' is published on the inside back cover of this issue. The Editor reserves the right to make changes which may clarify or condense papers where this is considered desirable.

© The contents of this Journal are copyright and, subject to the provisions of Section 7 of the Copyright Act, 1956, they may not be copied, adapted or reproduced without permission. Requests for permission to reproduce material elsewhere, either in whole or in part, should be addressed to the Editor, Postgraduate Medical Journal, 9 Great James Street, London, W.C.1.

Books received

The Investigation of Hypothalamic-Pituitary-Adrenal Function. Edited by V. H. T. JAMES and J. LANDON. *Memoirs of the Society for Endocrinology* 17. Pp. xii+311 illustrated. London: Cambridge University Press. 1968. 70s.

Neoplasma of the Stomach. By G. McNEER and G. T. PACK. Pp. xvi+555 illustrated. Philadelphia: J. B. Lippincott. London: Pitman Medical. 1968. £13.

Electroencephalography for Anaesthesiologists and Surgeons. By M. S. SADOVE, D. BECKA and F. A. GIBBS. Pp. v+95 illustrated. Philadelphia: J. B. Lippincott. London: Pitman Medical. 1968. 90s.

Progress in Clinical Cancer. Edited by I. M. ARIEL. Vol. III Pp. xiv+369 illustrated. London: William Heinemann Medical Books. 1968. £8 10s.

Studies of the Development and Decay of the Human Frame. By J. TRUETA. Pp. x+389 illustrated. London: William Heinemann. 1968. £6 6s.

An Immunological Approach to Cancer. By H. N. GREEN, H. M. ANTHONY, R. W. BALDWIN and J. W. WESTROP. Pp. ix+321 illustrated. London: Butterworths. 1968. 95s.

The Ultrastructure of the Animal Cell. By L. T. THREADGOLD. Pp. xxiii+313 illustrated. Oxford: Pergamon Press. 1967. £5.

Contributions to Medicine and Surgery by St Vincent's Hospital Staff, Sydney. Edited by T. NASH. Pp. 216 illustrated. London: Butterworths. 1966. 90s.

New Edition

Shaw's Textbook of Operative Gynaecology. Revised by JOHN HOWKINS. Third Edition. Pp. viii+556 illustrated. Edinburgh and London: E. & S. Livingstone. 1968. £7.

Book reviews

Short Textbook of Orthopaedics and Traumatology

By J. N. ASTON. Pp. 307, illustrated. London: The English Universities Press. 1967. 27s 6d (paperback), 40s (library edition).

This has the makings of a very good little book. The author has given considerable thought to the problems facing the undergraduate. He has selected his material with care, has omitted unnecessary detail, arranged the text in an unusual but useful manner, and provided a considerable number of clear diagrams. With all these praiseworthy achievements the text should be an excellent introduction to orthopaedics and traumatology; unhappily the author has been let down by his proof readers.

The innumerable spelling mistakes should not have passed unnoticed—they irritate the initiated and may mislead the beginner. As for the diagrams, although their boldness is praiseworthy, they should not be so crude as to be positively unaesthetic. Incidentally, three of the six diagrams in Fig. 96 are upside down, and Fig. 54 is incorrectly labelled. It may be excusable to spell 'Perthes' with an apostrophe before the 's' because it is such a common error, but when did that celebrated Dubliner Colles change his first name from Abraham to Benjamin, a curious distortion of biblical genealogy? It may be excusable to omit any description of the routine clinical examination of bones and joints on the assumption that the student will use a different book for this purpose or will learn it in out-patients, but surely he should not need yet another book to find the dosages of drugs—and these are consistently omitted.

The aim of the E.U.P. series is a good one. Students do need a text which is brief and which is cheap enough to be

expensible in a year or two. But economy is no excuse for carelessness. We look forward to a second edition which will realize the high potential value of this book.

Psychiatry—Medical Outline Series

By M. T. EATON, JR and M. H. PETERSON. Pp. 564. London: William Heinemann Medical Books. 1967. 42s.

This is a paperback edition of a comprehensive textbook of psychiatry written by two senior psychiatrists with wide teaching and clinical experience. The principal orientation of the text is practical and clinical and with an attempted eclectic theoretical basis although the bias is inevitably towards psychodynamic formulations and considerations. The four main sections of the book are concerned with considerations of personality development and techniques of examination, nosology and natural history, treatment procedures and, finally, a section primarily concerned with forensic and historical (not only American) aspects of psychiatry.

The book is specially aimed at the American undergraduate and postgraduate student of psychiatry. For instance, the final section also includes examples of the type of question likely to be encountered by the trainee psychiatrist when he sits the American equivalent of the D.P.M. In the reviewer's opinion many of these questions are sensible and searching and provide a useful starting off point for the student and the curious alike.

The book is easy to read and contains a lot of clinical sense. It would be worthwhile and of value alongside other textbooks of psychiatry on the shelves of medical school libraries as well as being of value to the postgraduate.

Postgraduate news

FELLOWSHIP OF POSTGRADUATE MEDICINE

The Fellowship usually holds the following courses each year (approximate dates and times in parentheses):

Medicine (M.R.C.P.)

General Medicine. Connaught, London Chest, Whipps Cross Hospitals (four weeks, twice yearly, April/May, October/November), St Stephen's Hospital (evenings, four weeks, twice yearly), Whittington Hospital (evenings, five weeks, twice yearly, May/June, October/November). Queen Mary's Hospital for the East End (weekend, twice yearly, June, December). Ashford Hospital, Middlesex (two Saturdays, twice yearly, May, November).

Infectious Diseases. Hither Green Hospital (weekend, twice yearly, March/November).

Paediatrics (D.C.H.). Princess Louise Kensington Hospital (weekend, twice yearly, March, September/October).

Surgery (F.R.C.S.)

General Surgery. Connaught Hospital (weekend, twice yearly, April, September/October). Queen Mary's Hospital for the East End (weekend, once yearly, February). Royal Marsden Hospital (twice yearly, March, September).

General Surgery and Orthopaedics. Fulham Hospital (three weeks, evenings, twice yearly, March/April, September/October).

Orthopaedics. Rowley Bristow Hospital, Pyrford (three alternate weekends, twice yearly, March/April, September/October).

Plastic Surgery. Queen Mary's Hospital, Roehampton (weekend, twice yearly, February, September).

CURRENT COURSES

General Surgery (F.R.C.S.) Connaught Hospital. 20 and 21 April. Fee £5 5s.

Clinical Medicine (M.R.C.P.) Whittington Hospital. 29 April to 1 June. Fee 28 guineas.

General Medicine (M.R.C.P.) Connaught, London Chest and Whipps Cross Hospitals. 10 June to 5 July. Fee 35 guineas.

General Medicine (M.R.C.P.) Ashford Hospital, Middlesex. Two Saturdays, 18 and 25 May. Fee 5 guineas.

Rheumatology (M.R.C.P.) St Stephens Hospital. 7, 8 and 9 June. Fee 7 guineas.

Please note that instruction arranged by the Fellowship of Postgraduate Medicine is open only to Associates (annual subscription, 21s). Detailed syllabuses are published approximately 4-6 weeks before courses begin and are circulated to all Associates. No entries to courses can be accepted in advance of the syllabus being published.

Information regarding courses can be obtained from the office between 10 a.m. and 5 p.m., Mondays to Fridays (Telephone 242-6900), or by writing to the Secretary, Fellowship of Postgraduate Medicine, 9 Great James Street, London, W.C.1.

THE COMMONWEALTH AND INTERNATIONAL MEDICAL ADVISORY BUREAUX

The Bureaux are maintained by the British Medical Association to provide a personal advisory service to doctors visiting the United Kingdom from all parts of the world. General information, as well as that on postgraduate education and accommodation is given.

All enquiries should be addressed to the Medical Director,

Commonwealth and International Medical Advisory Bureaux, British Medical Association, Tavistock Square, London, W.C.1.

CAMBRIDGE

Cambridge University Postgraduate Medical School

A summary of postgraduate facilities available at Addenbrooke's Hospital from October to July can be obtained from the Secretary of the Medical School. Arrangements can be made for practitioners to attend the practice of the Teaching Hospital Group for short or long periods.

Postgraduate Courses

At Cambridge: A 3-day course in Paediatrics will be held from 8 to 10 April 1968; accommodation will be provided in Fitzwilliam College.

A 6-day course 'Progress in the Biological Sciences in relation to Dermatology' will be held from 23 to 28 September 1968 in the Chemical Laboratory Lecture Theatre, Lensfield Road, Cambridge.

One-day course will be held at Addenbrooke's on Saturday, 20 April: Respiratory Diseases.

Two 1-week Refresher Courses for General Practitioners will be held at Addenbrooke's Hospital from 1 to 6 July and 8 to 13 July 1968. Accommodation will be available in Downing College.

Lunch time Forums, 1.15-2.15 p.m., preceded by buffet lunch, 12.30-1.15 p.m., are held at Addenbrooke's Hospital on the first and third Thursday of the month.

At Ipswich: at the Anglesea Road Wing, East Suffolk and Ipswich Hospital, Clinical Society Meetings will be held on the second Wednesday of the month at 8.30 p.m.

A course in Family Psychiatry will be held from 1 to 5 April 1968.

'Friday Club' Discussion Groups for General Practitioners take place on the first and third Fridays each month until 21 July between 1.45 and 2.45 p.m., preceded by buffet lunch.

At Bury St Edmunds: Clinical Meetings, Lunch time forums, and Medical Film/Discussions are held regularly at the West Suffolk General Hospital. Detailed timetables may be obtained from the Clinical Tutor.

At Norwich: Details of the postgraduate education arrangements may be obtained from the Secretary, Norfolk and Norwich Institute for Medical Education, Norfolk and Norwich Hospitals.

A calendar of lectures, seminars and tutorials and further particulars may be obtained from the Secretary of the Medical School, Tennis Court Road, Cambridge.

LIVERPOOL

University of Liverpool. Courses are held in Anaesthesia, Child Health, Medicine, Obstetrics and Gynaecology, Orthopaedic Surgery, Otorhinolaryngology, Psychological Medicine, Public Health, Radiodiagnosis and Radiotherapy, Surgery, Tropical Medicine and Hygiene and Venereology. After fulfilling the regulations, candidates may become eligible to take the Degrees of Ch.M., M.Ch.Orth. and M.Ch.Otol., and the Liverpool Diplomas, D.P.H., D.P.M., D.T.M. & H., D.M.R.(D) or D.M.R.(T).

The other courses are designed for students working for the London Diplomas.

There is also a day-release course in the Basic Medical Sciences for junior hospital staff.

Further information may be obtained from the Heads of the appropriate departments of the University, Liverpool 3.

OXFORD

University of Oxford. Enquiries about research and specialist training attachments may be addressed to the head of the relevant clinical or laboratory department in one of the teaching hospitals (United Oxford Hospitals, Nuffield Orthopaedic Centre, Warneford and Littlemore Hospitals) or to the Director of Postgraduate Medical Studies. Enquiries about study days and weekly classes at Oxford for M.R.C.P., F.R.C.S., M.R.C.O.G., F.F.A., D.P.M., D.M.R., candidates from the Oxford region, general practitioner refresher courses, resident obstetric and other clinical attachments, to the Director of Postgraduate Medical Studies, Osler House, 43 Woodstock Road, Oxford, from whom also information about the Medical Centres at Aylesbury, Kettering, Northampton, Reading, Swindon and Wycombe may be obtained.

GLASGOW

Surgery. An intensive course of instruction in the basic sciences suitable for candidates preparing for the Primary Fellowship Examination in Surgery is held from October to December. A modified form of the course is available for candidates preparing for the D.A. or F.F.A. examinations. Fee £30.

Anaesthetics. A course for specialist anaesthetists and for those preparing for the final part of the F.F.A.R.C.S. will be held in May. Fee £10 10s.

Medicine. An intensive course on Recent Advances in Clinical Medicine suitable for candidates preparing for the Membership Examination is held twice annually for a fortnight in March and September. Fee £15 15s.

Geriatrics. A course for trainee specialists in Geriatric Medicine or General Practitioners in charge of geriatric beds in hospitals is held in May. Fee £7 10s.

Child Health. A formal course held in May and November for those preparing for the D.C.H. and M.R.C.P. with Child Health as a special subject. Fee £15 15s.

Obstetrics. An intensive week's course of instruction in obstetrics for those preparing for the D.Obst.R.C.O.G. held in September. Fee £7 10s.

Mental Deficiency. An intensive course in Mental Deficiency is held for 3 weeks in October. The course includes lectures and demonstrations in mental handicap and deficiency, instruction in mental testing and visits to institutions. Fee £18.

Introduction to Psychiatry. An intensive course providing a general introduction to psychiatry is held for 3 weeks in November. The course includes theoretical and clinical instruction in child psychiatry and psychology and adult psychiatry. It is particularly suitable for medical officers concerned with public health. Fee £18.

Steroid Endocrinology. A course for clinicians and hospital laboratory workers with special interest in Endocrinology and for those in general medicine who wish to have a better understanding of treatment with steroid hormones is held in April. Fee £15.

Diagnostic Virology. A course for experienced laboratory workers who wish to develop diagnostic virology for epidemiological purposes in this country and abroad is held in April. Fee £25.

Histopathology of the Skin. A course for pathologists and those with some training in pathology is held for 1 week in March. Fee £7 10s.

Forensic Medicine. A postgraduate course in the University Department of Forensic Medicine is held for 10 weeks from April to June. Fee £15.

Clinical Attachments. A scheme for clinical attachments in

general medicine, general surgery and various specialties has been arranged to assist those working for higher qualifications. An attachment may be started at any time. No formal instruction is given, but participants can gain intensive clinical experience by following the day-to-day work of a unit in a Glasgow teaching hospital. Fee £5 per month. Registration fee £1 1s.

Teaching Ward Rounds. Each academic term a course of ten teaching ward rounds in Medicine is arranged. These occupy one afternoon a week. Fee £8 8s.

Radiology. A course in radiological interpretation for clinicians. Lecture demonstrations on alternate Tuesdays in conjunction with Teaching Ward Rounds. Fee £5 5s.

Dermatology. An intensive week's course in dermatology. Suitable for M.R.C.P. candidates. March. Fee £7 10s. A week-end course in dermatology. May. Fee £3 3s.

Research Techniques in Experimental Surgery and Anaesthesia. A 2-day course giving an introduction to research techniques in Experimental Surgery and Anaesthesia. March. Fee £3 3s.

Steroid Endocrinology. A course for clinicians and hospital laboratory workers with a special interest in Endocrinology or for those in General Medicine who wish to have a better understanding of treatment with steroid hormones. April. Fee £15.

Medical Ophthalmology. An intensive weekend course on the ophthalmological aspects of general medicine. Suitable for M.R.C.P. candidates. May and October. Fee £5 5s.

GENERAL PRACTITIONER COURSES

Two Refresher Courses for general practitioners are held annually – for a fortnight in May and September. Two-week postgraduate residencies are available continuously in maternity hospitals in the Western Region.

Clinical Attachments – continuous. Full-time or part-time attachments to hospital teaching units to enable General Practitioners to increase their experience and keep up to date with recent trends and advances. Fee £1 5s. per week for full-time attachment.

Extended Courses and 1-day course covering selected topics in general subjects or the specialties held in teaching hospitals in Glasgow and principal hospitals in other parts of the Western Region. Meetings are generally held on Sundays from October to May and are arranged by the West of Scotland Faculty of the College of General Practitioners from whom full details are available.

Full-time Course. The Board offers full-time postgraduate courses in Radiology (2 years) and Radiotherapy (2 years). The University offers full-time postgraduate courses leading to the following diplomas:

Diploma in Public Health (1 year)

Diploma in Clinical Psychology (2 years).

Conferences. Specialist conferences on various topics are held twice a year in the Hall of the Royal College of Physicians and Surgeons. In these, invited guests and local speakers discuss current topics and time is provided for audience participation. These conferences are designed particularly for consultants and registrars.

Further information and application forms can be obtained from the Director of Postgraduate Medical Education, The University, Glasgow, W.2.

UNIVERSITY OF EXETER**Postgraduate Medical Institute**

A full-time postgraduate course lasting 10 weeks will begin on the 17 April 1968. These courses are held three times a year starting in October, January and April. They are intended to meet the needs of both overseas graduates and

British medical practitioners. For overseas graduates they provide an introductory course to British Hospital Practice before proceeding to hospital posts in the National Health Service or to specialized instruction for a postgraduate diploma elsewhere. For British graduates they provide a refresher course which is suitable for those returning from overseas or from H.M. Forces, for married women graduates returning to active practice, or for general practitioners who are prepared to undertake extended postgraduate courses of this nature. It is sometimes possible to accept general practitioners for 1 or 2 weeks of a course and attendance for this period is recognized by the Ministry under Section 48 of the N.H.S. Act (1946).

Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students receive teaching in each of the main clinical departments.

Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training.

Further particulars and application forms for these courses are obtainable from the Director, Postgraduate Medical Institute, The University, Exeter, Devon.

NEWCASTLE UPON TYNE

Courses of three to four sessions in various Medical and Surgical subjects on a weekly sessional basis during term-time. Suitable for those preparing for a higher qualification.

Clinical attachments, full-time or part-time, throughout the year.

Attachments of 1 or 2 weeks for general practitioners in General Medicine, Dermatology, Obstetrics, Paediatrics, Psychiatry, Geriatrics and other subjects by arrangement. Recognized under Section 48 of the N.H.S. Act.

Further details from the Postgraduate Sub-Dean, Organization for Postgraduate Medical Education, The Medical School, The University, Newcastle upon Tyne.

University courses for postgraduate diplomas. D.P.M. and D.P.H. *Further details from the Assistant Registrar, Medical School, The University, Newcastle upon Tyne.*

THE ROYAL COLLEGE OF GENERAL PRACTITIONERS

Medical Recording Service

Kitts Croft, Writtle, Chelmsford, Essex (Tel. Writtle 316). Selection of titles available on tape (5 in. reels running at 3½ ips). These talks may be borrowed by any doctor anywhere in the world.

New titles available on tape

- 67-28 Vocational Training in General Practice—Dr George Swift 18 min.
- 67-30 Testing the Effectiveness of Teaching—Dr Suzette Gauvain 40 min. 44 slides
- 67-35 Haemolytic Anaemias—Professor A. Goldberg (From Gardiner Institute, Western Infirmary, Glasgow) 50 min. 59 slides.
- 67-31 Assumptions in Learning and Teaching—Mrs M. J. Abercrombie 52 min. 43 slides.
- 66-27 A New Look at Infant Feeding—Dr Ian G. Wickes 28 min (Points of View Series).
- 67-25 Myeloproliferative Diseases — Dr S. M. Lewis 30 min. 29 slides.

THIRD INTERNATIONAL CANCER CONGRESS

22-29 May 1970 in Houston, Texas, United States of America, under the auspices of the International Union against Cancer.

The Congress will feature the following events:

Preliminary Special Sessions of the Congress.

Congress Lectures.

Panel Discussions.

Sectional Meetings with Proffered Papers on Variety of Topics or Subjects.

Scientific Exhibits.

Commercial Exhibits.

Films.

National Organizing Committee:

Secretariat—The University of Texas M. D. Anderson Hospital and Tumor Institute, 6723 Bertner Avenue, P.O. Box 20465, Astrodome Station, Houston, Texas 77025. Cable address: Cancong.

Chairman: R. Lee Clark, M.D.

Secretary General: Tenth Congress: Murray M. Copeland, M.D.

THE BRITISH CLUB FOR SURGERY OF THE HAND

On the occasion of the visit of the American Society for Surgery of the Hand, an **Open Meeting** will be held at the **Royal College of Surgeons**, Lincoln's Inn Fields, London W.C.1 on Tuesday 7 May 1968 at 2.0 p.m. Admission free to all interested in Hand Surgery.

The following American Surgeons will speak:

Dr R. M. Curtis —The management of the stiff proximal interphalangeal joint.

Dr A. B. Swanson —Silastic implants in the hand.

Dr A. D. Potenza —The mechanisms of healing of flexor tendons.

Dr D. C. Riordan —Tendon transfers for median and ulnar palsies.

The meeting will be followed by the Hunterian Lecture—Professor G. R. Fisk—Carpal Stability and the Fractured Scaphoid.

Postgraduate Medical Journal: Notice to Contributors

Typescripts (two complete copies) should be sent to the Editor, Dr A. A. G. Lewis, Postgraduate Medical Journal, 9 Great James Street, London, W.C.1. Papers should be typewritten on one side of the paper only, with a $1\frac{1}{2}$ inch margin, and the lines should be double-spaced. In addition to the title of the paper there should be a 'running title' (for page headings) of not more than 45 letters (including spaces). The paper should bear the name of the author(s) with their degrees and descriptions and of the laboratory or research institute where the work has been carried out. The full postal address of the principal author should be given as a footnote. (The proofs will be sent to this author and address unless otherwise indicated).

Arrangement. Papers should normally be divided into: (a) Introduction; (b) Materials and methods; (c) Results, as concise as possible (both tables and figures illustrating the same data will rarely be permitted); (d) Discussion and conclusions; (e) Summary, brief, self-contained and embodying the main conclusions; (f) Acknowledgments; (g) References.

References. Only papers closely related to the author's work should be included, exhaustive lists should be avoided. References should be made by giving the author's surname, with the year of publication in parentheses. When reference is made to a work by three authors all names should be given when cited for the first time, and thereafter only the first name, adding *et al.*, e.g. Smith *et al.* (1958). The '*et al.*' form should always be used for works by four or more authors. If several papers by the same author and from the same year are cited, a, b, c, etc., should be put after the year of publication, e.g. Smith *et al.* (1958a). All references should be brought together at the end of the paper in alphabetical order. References to articles and papers should mention (a) name(s) of the author(s); (b) year of publication in parentheses; (c) title of paper; (d) title of journal, underlined, abbreviated according to *World Medical Periodicals* (3rd edn, World Medical Association); (e) volume number; number of first page of article. References to books and monographs should include (a) name(s) and initials of author(s) or editor(s); year of publication in parentheses; (b) title, underlined; (c) edition; (d) page referred to; (e) publisher; (f) place.

Standard usage. The *Concise Oxford English Dictionary* is used as a reference for all spelling and hyphenation. Verbs which contain the suffix *ize* (*ise*) and their derivatives should be spelt with the *z*. Statistics and measurements should always be given in figures, i.e. 10 min, 20 hr, 5 ml, except where the number begins the sentence. When the number does *not*

refer to a unit of measurement, it is spelt out except where the number is greater than one hundred.

Abbreviations. Abbreviations for some of the commoner units are given below. The abbreviation for the plural of a unit is the same as that for the singular unless confusion is likely to arise.

gram(s)	g	second(s)	sec
kilogram(s)	kg	cubic millimetre(s)	mm ³
milligram(s)		millimetre(s)	mm
(10 ⁻³ g)	mg	centimetre(s)	cm
microgram(s)		millicurie(s)	mCi
(10 ⁻⁶ g)	µg	millilitre(s)	ml
nanogram(s)		pound(s)	lb
(10 ⁻⁹ g)	ng	milliequivalent	mEq
picogram(s)			
(10 ⁻¹² g)	pg	R _F values	R _F
hour(s)	hr		
minute(s)	min	gravitational acceleration	g
micron(s)	µ	per cent	%

Example: mg/100 ml, for biochemical values; mEq/l

Figures. In the text these should be given Arabic numbers, e.g. Fig. 3. They should be marked on the backs with the name(s) of the author(s) and the title of the paper. Where there is any possible doubt as to the orientation of a figure the top should be marked with an arrow. Each figure must bear a reference corresponding to a similar number in the text. Photographs and photomicrographs should be unmounted glossy prints and should not be retouched. Line diagrams should be on separate sheets; they should be drawn with black Indian ink on white paper and should be about four times the area of the final reproduction. Lines and lettering should be of sufficient thickness and size to stand reduction to one-half or one-third. Letters and numbers must be written lightly in pencil. Whenever possible, the originals of line diagrams, prepared as described above, should be submitted and not photographs. The legends of all the figures should be typed together on a single sheet of paper headed 'Legends to Figures.'

Tables. There should be as few tables as possible and these should include only essential data; the data should not be crowded together. The main heading should be in capitals with an Arabic number, e.g. TABLE 2. Each table must have a caption in small letters. Vertical lines should not be used.

Page proofs will be submitted to the contributors for minor corrections and should be returned to the Editor within 3 days. Major alterations to the text cannot be accepted.

Offprints. These may be purchased if ordered on the form which will be sent to the senior author with the proofs.
