Postgraduate Medical Journal is published monthly for the Fellowship of Postgraduate Medicine by Blackwell Scientific Publications Ltd. The annual subscription is £8.00 (\$27.00) post free, and the price of single issues 90p (\$3.00) postage extra. Orders for back issues published up to December 1966 and correspondence from Fellows and Associates should be sent to The Secretary, The Fellowship of Postgraduate Medicine, 9 Great James Street, London, W.C.1 (tel: 01-242 6900); other orders and business correspondence should be addressed to Blackwell Scientific Publications Ltd, 5 Alfred Street, Oxford OX1 4HB (tel: Oxford 40201).

All editorial correspondence should be addressed to Dr A. A. G. Lewis, The Postgraduate Medical Journal, 9 Great James Street, London, W.C.1 (tel: 01-242 6900).

Advertisement enquiries and bookings should be addressed to S. & H. Fretwell Ltd, 267 Portland Road, London, S.E.25 (tel: 01-654 8921).

The Fellowship of Postgraduate Medicine was founded by a group of London consultants after the First World War to assist postgraduates, particularly those coming to London from the Commonwealth, to pursue their studies. The Fellowship first published the *Postgraduate Medical Journal* to give informa-

tion about lectures, conferences and courses and to provide a monthly review of all branches of medicine.

Postgraduate Medical Journal publishes original papers on subjects of current clinical importance and welcomes review articles with extensive, up-to-date bibliographies as guides to further reading. Several symposia are published every year, each devoted to a single subject and written, by invitation, by specialists in different disciplines. Most issues include authoritative Current Surveys of clinical problems, as well as well-documented Reports of cases of particular interest, Correspondence and Book Reviews.

A 'Notice to Contributors' is published on the inside back cover of this issue. The Editor reserves the right to make changes which may clarify or condense papers where this is considered desirable.

© The contents of this Journal are copyright and, subject to the provisions of Section 7 of the Copyright Act, 1956, they may not be copied, adapted or reproduced without permission. Requests for permission to reproduce material elsewhere, either in whole or in part, should be addressed to the Editor, *Postgraduate Medical Journal*, 9 Great James Street, London, W.C.1.

POSTGRADUATE MEDICAL JOURNAL

*Published by Blackwell Scientific Publications for the
Fellowship of Postgraduate Medicine*

Postgraduate Medical Journal is an international journal designed for all those who wish to keep abreast of the most important current trends in clinical medicine. Each issue, printed on art paper and fully illustrated, contains the following regular features:

- * *Original papers*
- * *Review articles* with extensive up-to-date bibliographies as guides to further reading
- * *Current surveys* of clinical problems by leading authorities
- * *Case reports* of particular interest, fully documented
- * *Book reviews*

At least six issues every year contain symposia devoted to subjects of outstanding importance or to the work of one university. In addition, free supplements are issued from time to time to cover particularly interesting current topics. Details of recent and forthcoming supplements and special issues are given below, and a list of contents and details of other issues will gladly be sent on request.

Postgraduate Medical Journal: Notice to Contributors

Typescripts (two complete copies) should be sent to the Editor, Dr A. A. G. Lewis, Postgraduate Medical Journal, 9 Great James Street, London, W.C.1. Papers should be typewritten on one side of the paper only, with a 1½ inch margin, and the lines should be double-spaced. In addition to the title of the paper there should be a 'running title' (for page headings) of not more than 45 letters (including spaces). The paper should bear the name of the author(s) with their degrees and descriptions and of the laboratory or research institute where the work has been carried out. The full postal address of the principal author should be given as a footnote. (The proofs will be sent to this author and address unless otherwise indicated.)

Arrangement. Papers should normally be divided into: (a) Summary, brief, self-contained and embodying the main conclusions; (b) Introduction; (c) Materials and methods; (d) Results, as concise as possible (both tables and figures illustrating the same data will rarely be permitted); (e) Discussion and conclusion; (f) Acknowledgments; (g) References.

References. Only papers closely related to the author's work should be included, exhaustive lists should be avoided. References should be made by giving the author's surname, with the year of publication in parentheses. When reference is made to a work by three authors all names should be given when cited for the first time, and thereafter only the first name, adding *et al.*, e.g. Smith *et al.* (1958). The '*et al.*' form should always be used for works by four or more authors. If several papers by the same author and from the same year are cited, a, b, c, etc., should be put after the year of publication, e.g. Smith *et al.* (1958a). All references should be brought together at the end of the paper in alphabetical order. References to articles and papers should mention (a) name(s) of the author(s); (b) year of publication in parentheses; (c) title of paper; (d) title of journal in full, underlined; (e) volume number; number of first page of article. References to books and monographs should include (a) name(s) and initials of author(s) or editor(s); year of publication in parentheses; (b) title, underlined; (c) edition; (d) page referred to; (e) publisher; (f) place.

Standard usage. The *Concise Oxford English Dictionary* is used as a reference for all spelling and hyphenation. Verbs which contain the suffix *ize* (*ise*) and their derivatives should be spelt with the *z*. Statistics and measurements should always be given in figures, i.e. 10 min, 20 hr, 5 ml, except where the number begins the sentence. When the number does *not*

refer to a unit of measurement, it is spelt out except where the number is greater than one hundred.

Abbreviations. Abbreviations for some of the commoner units are given below. The abbreviation for the plural of a unit is the same as that for the singular unless confusion is likely to arise.

| | | | |
|-----------------------|-----|----------------------------|-----------------|
| gram(s) | g | second(s) | sec |
| kilogram(s) | kg | cubic millimetre(s) | mm ³ |
| milligram(s) | | millimetre(s) | mm |
| (10 ⁻³ g) | mg | centimetre(s) | cm |
| microgram(s) | | millicurie(s) | mCi |
| (10 ⁻⁶ g) | μg | millilitre(s) | ml |
| nanogram(s) | | pound(s) | lb |
| (10 ⁻⁹ g) | ng | milliequivalent | mEq |
| picogram(s) | | | |
| (10 ⁻¹² g) | pg | R _F values | R _F |
| hour(s) | hr | | |
| minute(s) | min | gravitational acceleration | g |
| micron(s) | μ | per cent | % |

Example: mg/100 ml, for biochemical values; mEq/l

Figures. In the text these should be given Arabic numbers, e.g. Fig. 3. They should be marked on the backs with the name(s) of the author(s) and the title of the paper. Where there is any possible doubt as to the orientation of a figure the top should be marked with an arrow. Each figure must bear a reference corresponding to a similar number in the text. Photographs and photomicrographs should be unmounted glossy prints and should not be retouched. Line diagrams should be on separate sheets; they should be drawn with black Indian ink on white paper and should be about four times the area of the final reproduction. Lines and lettering should be of sufficient thickness and size to stand reduction to one-half or one-third. Letters and numbers must be written lightly in pencil. Whenever possible, the originals of line diagrams, prepared as described above, should be submitted and not photographs. The legends of all the figures should be typed together on a single sheet of paper headed 'Legends to Figures'.

Tables. There should be as few tables as possible and these should include only essential data; the data should not be crowded together. The main heading should be in capitals with an Arabic number, e.g. TABLE 2. Each table must have a caption in small letters. Vertical lines should not be used.

Page proofs will be submitted to the contributors for minor corrections and should be returned to the Editor within 3 days. Major alterations to the text cannot be accepted.

Offprints. These may be purchased if ordered on the form which will be sent to the senior author with the proofs.
