Dear Sir,

Many thanks for your cheque. It was indeed a pleasant surprise, and you have done splendidly. Most of the bills I gave you were looked upon as absolute bad debts and had been dunned for here long before you got them.

You can use this letter how you like.

Yours very truly,

**THE HOSPITAL FOR SICK CHILDREN, GREAT ORMOND ST., W.C.1.**

This Hospital contains 252 beds, with an average admission of 5,000 in-patients per annum; whilst in the out-patient Department about 25,000 new patients are seen each year. The Medical School is recognised by the Universities of Oxford, Cambridge, and London, and by the Conjoint Medical Board of England, as a teaching institution where two months' clerking and dressing may be carried out by any undergraduate student who is entering for a final qualifying examination. In addition, for students who have completed four years of medical study, six months of the fifth year may be spent there in clinical work under recognition from the Conjoint Board. Post-graduate instruction, open to all qualified medical men and women, is given daily in the wards, out-patient department, operating theatre, and *post-mortem* room by members of the visiting staff. In addition, lectures are arranged for them throughout the year, announcements of which are made from time to time, and full details of them can be obtained from the Dean or Secretary at the Hospital. Clinical clerkship in the wards and clinical assistantships in the out-patient department are also available for post-graduate students. Opportunities for study are also offered in the Ophthalmic, Dermatological, Dental, Radiographic, and Pathological Departments.

**Fees for Hospital Attendances.** One Month's Ticket, £2 2s. Three Months' Ticket, £5 5s. Perpetual Ticket, £10 10s. Special reduced fees for Clinical Clerks, Dressers for one month's attendance, £1 1s. Clerks attend for about four hours daily.

**Pathological Department.** Facilities are afforded to post-graduates for obtaining theoretical and practical instruction in Clinical Pathology and Bacteriology, and in Medical Biochemistry in the Pathological and Biochemical Laboratories.

Courses of 8 to 10 Lecture Demonstrations are given at weekly intervals twice a year in both subjects (Clinical Pathology and Bacteriology and Biochemistry). These Lecture Demonstrations are of one or two hours' duration.

# Milk Intolerance.

For many years Bengers' Food, as is well known, has been used by practitioners throughout the world as a routine diet in all gastric cases, debility, and in cases of milk intolerance. The reason for this may be briefly stated:—

Bengers' Food is a special wheaten flour preparation containing, in suitable amount, the two natural digestive principles — Amylopsin and Trypsin — in a latent state.

*It is devised and expressly intended to be used in conjunction with fresh cows' milk, or diluted milk, if desired.*

The two enzymes are in such condition as to exert their digestive powers under the condition which obtains during the preparation for use.

**These considerations show that Bengers' Food is not merely a mechanical milk modifier — it is a real modifier of a peculiar character.**

THE "LANCET"  
*describes it as "Mr. Bengers' admirable preparation."*

A Physician's sample will be sent post free to any member of the Medical Profession making application to the Proprietors:—
