"THE RAKE'S PROGRESS" after WILLIAM HOGARTH.

"THE LEVEE" PLATE TWO. STATE 2.

53, Short's Gardens,
Drury Lane, London, W.C.2.

Reverting to our articles in this journal of May, June and July, the Engraver Mr. E. J. Stodart, not having advanced sufficiently for another state of "The Arrest" to be reproduced in this issue, we show here a photograph of the "The Levee." If you did not see the previous announcements and are interested in the technique, we shall be pleased to send you a prospectus, giving full information, together with miniatures of the work in colour.

The Collection of Overdue Accounts

WITHOUT OFFENCE

Many Members of the Medical Profession think that their Bad Debts should be collected on a commission basis, but, they themselves would not undertake to treat their patients on the same basis. Nine-tenths of the average Practitioner's income is derived from Good Patients. THREE QUARTERS of our income is derived from the Bad Patients, and one quarter from our Members.
