

Postgraduate Medical Journal

VOLUME 50

NUMBER 584

JUNE 1974

Introduction	323
PROFESSOR C. E. STROUD	
Clinical problems in hepatitis in childhood: King's College Hospital experience 1970-73	324
A. P. MOWAT AND R. WILLIAMS	
Viral hepatitis and hepatitis B antigen: recent advances	327
S. KRUGMAN	
Acquisition of hepatitis B antigen in the newborn period	334
Y. E. COSSART	
Viral infections of the liver in childhood	338
A. J. ZUCKERMAN	
General discussion.	343
Pathology with reference to the bile retention syndrome	344
J. L. EMERY	
The role of immunological mechanisms in acute and chronic hepatitis	348
A. L. W. F. EDDLESTON	
Bile salts and liver disease in childhood	354
N. B. JAVITT	
General discussion.	360
Genetic aspects of the Pi system	362
P. J. L. COOK	
Pathology and pathogenesis of liver disease in alpha-1-antitrypsin deficient individuals	365
Ø. AAGENAES, M. FAGERHOL, K. ELGJO, E. MUNTHE AND T. HOVIG	
Neonatal hepatitis and alpha-1-antitrypsin deficiency: an epidemiological study in South-East England	376
K. COTTRALL, P. J. L. COOK AND A. P. MOWAT	
General discussion.	380
Liver disease in childhood: principles of management	381
R. WILLIAMS	
Treatment of chronic active hepatitis in children	386
R. S. DUBOIS AND A. SILVERMAN	
Controlled trials of immunosuppressive therapy in hepatitis	392
R. B. STERN AND R. WILLIAMS	
Organization of controlled trials in paediatric liver disease	396
O. P. GRAY	
General discussion.	399
