

# Swann-Morton SURGICAL BLADES AND KNIVES....

...the choice of surgeons the world over.  
The Swann-Morton range of stainless  
and carbon steel blades includes all  
the nine universally accepted shapes.

## STITCH CUTTER

requires no handle and eliminates  
the use of scissors.

## Heart Disease in Infants and Children

Edited by Gerald Graham and Ettore Rossi

A full but succinct account of diagnosis and treatment of congenital and acquired heart disease in infants and children. Written specifically for the paediatrician and cardiologist not specialising in paediatric cardiology.

*Boards £45 512 pages 205 illustrations*

## Pathways in Neurological Diagnosis

John I. Balla

A logical outline of how neurological diagnosis is made. The emphasis throughout is on the clinical rather than investigative aspects.

*Boards £10 134 pages 33 illustrations Publication July*

## Gynaecology by Ten Teachers

Thirteenth Edition

Edited by Stanley G. Clayton, T. L. T. Lewis and G. D. Pinker

This new edition has been thoroughly revised and reflects the rapid changes in gynaecological practice over the last few years. An excellent basic text written by teachers actually engaged in clinical teaching and examining.

*Boards £10.75 398 pages 135 illustrations Publication June*

## Metabolic Pathways in Medicine

H. G. J. Worth and D. H. Curnow

A quick and easy reference to the basic data of human metabolism — metabolic pathways, associated enzymes, control mechanisms and their perturbations causing human disease.

*Boards £13.95 192 pages fully illustrated*
