TRADE MARK

## NEOTROPIN

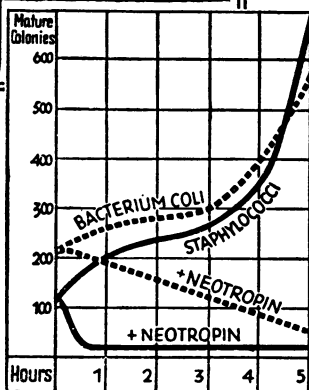

BRAND

BUTYLOXY-DIAMINO-AZO-PYRIDIN.

*A urinary antiseptic of remarkable powers of penetration and tissue affinity; highly bactericidal*

Original Packing:  
Bottles of 30 dragées  
of 1.5 grains.

The curves show the increase in growth of bacteria in ordinary urine compared with the decrease in growth produced by Neotropin

NEOTROPIN is a dye-stuff of the azo-pyridine series and possesses the marked powers of penetration and tissue affinity inherent to dyes. Shortly after its administration it imparts a yellowish red colour to the urine and later the prostatic, testicular and cervical secretions.

The bactericidal effects of Neotropin have been confirmed by a long series of experiments both in vitro and in vivo. Even in a dilution of 1/512,000 it still inhibits bacterial growth.

Its combined penetrative and antiseptic properties render it invaluable in the treatment of Bacteriuria, Cystitis, Pyelitis and Pyelonephritis.

Its freedom from any irritant effect explains its remarkable efficacy in acute gonorrhoea and cystitis.

## CORRESPONDENCE.

51, *Cartwright Gardens,*  
*London, W.C.1.*

March 31, 1931.

THE EDITOR, POST-GRADUATE MEDICAL JOURNAL.

DEAR SIR,—Before I leave London, where I have been learning the latest treatment in medicine, I would like with your courtesy, through your paper, to express my thanks to the doctors and the others who have shown such great kindness during my visit from Persia, especially those I met in St. John Hospital, Lock, St. Bartholomews, Middlesex and University College Hospital.

With compliments and good wishes to all.

Yours faithfully,  
(Dr.) MOOSA (HAKIM AALAM),  
Hassanabad, Teheran.

# INSULIN (BOOTS)

PREPARED in the Laboratories of Boots Pure Drug Company Co. Ltd., under Licence No. 19 (Therapeutic Substances Act, 1925) of the Ministry of Health.

It is made from selected ox pancreas which is subject to the strictest examination before use.

The company possesses specially equipped Analytical, Pharmacological and Bacteriological Laboratories in which all the tests required by the Therapeutic Substances Act are carried out.

Each batch of Insulin (Boots) is tested for potency against the International Standard Insulin and also for sterility—these tests being carried out both before and after filling into ampoules. Samples of each batch, together with reports on the potency and bacteriological tests made, are submitted to the British Medical Research Council whose certificate of correct strength and of sterility is obtained before the batch is issued.

## COURSES OF LECTURES

ON

# FUNCTIONAL NERVOUS DISORDERS

ARE GIVEN AT

## THE TAVISTOCK SQUARE CLINIC,

51, Tavistock Square, W.C. 1,

ABOUT THREE TIMES A YEAR.

The present course began April 30,  
and will continue until July 16.

**CLINICAL WORK IS ARRANGED  
AS OPPORTUNITY OFFERS.**

For full information apply to the HON. LECTURE  
SECRETARY, at the Clinic.

# THE HOSPITAL FOR SICK CHILDREN, GREAT ORMOND ST., W.C.1.

This Hospital contains 252 beds, with an average admission of 5,000 in-patients per annum; whilst in the out-patient Department about 25,000 new patients are seen each year. The Medical School is recognised by the Universities of Oxford, Cambridge, and London, and by the Conjoint Medical Board of England, as a teaching institution where two months' clerking and dressing may be carried out by any undergraduate student who is entering for a final qualifying examination. In addition, for students who have completed four years of medical study, six months of the fifth year may be spent there in clinical work under recognition from the Conjoint Board. Post-graduate instruction, open to all qualified medical men and women, is given daily in the wards, out-patient department, operating theatre, and *post-mortem* room by members of the visiting staff. In addition, lectures are arranged for them throughout the year, announcements of which are made from time to time, and full details of them can be obtained from the Dean or Secretary at the Hospital. Clinical clerkship in the wards and clinical assistantships in the out-patient department are also available for post-graduate students. Opportunities for study are also offered in the Ophthalmic, Dermatological, Dental, Radiographic, and Pathological Departments.

**Fees for Hospital Attendances.** One Month's Ticket, £2 2s. Three Months' Ticket, £5 5s. Perpetual Ticket, £10 10s. Special reduced fees for Clinical Clerks, Dressers for one month's attendance, £1 1s. Clerks attend for about four hours daily.

**Pathological Department.** Facilities are afforded to post-graduates for obtaining theoretical and practical instruction in Clinical Pathology and Bacteriology, and in Medical Biochemistry in the Pathological and Biochemical Laboratories.

Courses of 8 to 10 Lecture Demonstrations are given at weekly intervals twice a year in both subjects (Clinical Pathology and Bacteriology and Biochemistry). These Lecture Demonstrations are of one or two hours' duration.

**Fees.**—For Course of 8 to 10 Laboratory Demonstrations in either Branch . . . . . **£5 5 0**  
 For combined Course of (a) Clinical Pathology and Bacteriology and (b) Medical Biochemistry . . . . . **£8 8 0**

JAMES MCKAY, Secretary.

ERIC I. LLOYD, F.R.C.S., Dean of the Medical School.

## HIGH-CLASS PRIVATE RESIDENTIAL HOTEL

*Well-appointed single and double rooms; quiet and comfortable;  
 one minute from Earl's Court Station.*

Bed and breakfast from £2 2 0 a week; en pension terms by arrangement.

**1, Barkston Gardens, Kensington, S.W.5.** Telephone: FROBISHER 2259.

# RUTHIN CASTLE

(Formerly Duff House, Banff).

The first Private Hospital in the United Kingdom to be fully provided with a whole-time specially qualified Staff of Doctors, Analytical Chemists, Bacteriologists, Radiologists, Nurses, Dietists, Masseurs, and Masseuses, and a full equipment of Laboratories, X-rays, Electrocardiograph, Artificial Sunlight, and Medical Baths.

The Hospital is equipped for the diagnosis and treatment of any form of ill-health, excepting Infectious and Mental disease, Inebriety or Drug Addiction.

The climate is mild and the neighbourhood beautiful.

Apply: THE SECRETARY,  
 Ruthin Castle, North Wales.

Telegrams—CASTLE, RUTHIN.

Telephone—66 RUTHIN.

# DEAFNESS

Doctors prefer "ARDENTE" because . . .

**MEDICAL REPORTS.**  
 Commended by all leading medical journals,  
 —Mr. Dent will be happy to send full  
 particulars and reprints on request

**"ARDENTE" STETHOSCOPE.**  
 Mr. R. H. Dent makes a Stethoscope  
 specially for members of the medical  
 profession suffering from deafness.  
 Many are in use, and excellent results  
 are reported on the latest, as evidenced  
 by the interest shown at the last B. M. A.  
 Meeting.

1. It is individually fitted to suit the case for young, middle-aged or old
2. It is simple and true to tone, and leaves the hands free
3. It removes strain, thus relieving head noises. It conveys sounds from varying ranges and angles
5. It is entirely different, uncopiable, and carries a guarantee and service system
6. It is suitable for "hard of hearing" or acutely deaf
7. It is helpful for conversation, music, wireless, home, office, public work and sports

**FREE HOME TESTS ARRANGED FOR DOCTORS AND PATIENTS.**

Medical prescriptions made up to the minutest detail.
