MACMILLAN PRESS SCIENTIFIC & MEDICAL

DECISION MAKING IN GENERAL PRACTICE

Edited by **Michael Sheldon**, Department of Community Health, Queen's Medical Centre, Nottingham, **John Brooke**, Digital Equipment Company, Reading and **Alan Rector**, Medical Computation Unit, Manchester Royal Infirmary.

The book is based on a workshop held at Queen's Medical Centre, Nottingham and considers the problems of decision-making in the consultation as applied to general practice. The main areas of focus are: (i) needs of the undergraduate and vocational training in general practice for the future; and (ii) the introduction of computers into the consultation with reference to expert systems and decision support systems.

Decision Making in General Practice will be of value to instructors and educationalists in general practice as well as to all GPs, particularly those interested in computers in general practice.

The contents cover: *The Consultation; Models of Decision Making; Diagnosis; Management in the Consultation; Experience and Current Research; Methodology for Studying Decision Making Process; Implications for Education, Decision Support Systems and General Practice.*

208pp 234 x 156 mm £25.00
ISBN 0 333 36626 3

MACMILLAN PRESS FOR TITLES ON PREGNANCY AND PAEDIATRICS

PREGNANT WOMEN AT WORK

Edited by Geoffrey Chamberlain

The problems facing working pregnant women are extremely diverse. This book draws together contributions from experts in a variety of disciplines not usually found in one volume.

It consists of a series of authoritative accounts of the various effects of working while pregnant – both in the workplace and in the home, and highlights the varying work habits of pregnant women in different countries.

The technical hazards of radiation and chemicals are considered, but wider medico-sociological aspects are given coverage along with legal, trade union, and management viewpoints.

BIRTH DEFECTS COMPENDIUM

Edited by Daniel Bergsma

This compendium contains comprehensive information on 1,005 birth defects contributed by health authorities from 24 countries. In addition the compendium contains 3,000 references to relevant literature and 500 illustrations. The combination of text and illustration will enable diagnostic criteria, clinical features, treatment, prognosis and recurrence risk to be more easily ascertained.

PREGNANCY CARE IN THE 1980s

*Edited by Luke Zander and
Geoffrey Chamberlain*

Current practice and future trends in pregnancy are controversial subjects. This book considers the different aspects of pregnancy and its management from a wide range of different views. It is very much a critical appraisal of current practices, expected objectives and future expectations. Some of the questions asked include: what should be the content of antenatal care? How do bonding processes relate to obstetric practices? How should preparation for parenthood be directed? and what changes are expected in the coming decade? Bringing together, as it does, a wide variety of different professional views, this book will be valuable to all those involved in this vital aspect of medical care.

JOURNALS FROM MACMILLAN

In 1985 Macmillan are launching new journals for new and fast developing areas of science as well as strongly supporting their established titles. The publication of **Anti-Cancer Drug Design** and **Bone Marrow Transplantation** respond to new developments in scientific research, and will provide a valuable forum for exchange of ideas.

At the same time our already established journals continue to chart and report new developments. **Postgraduate Medical Journal** has recently celebrated its 60th anniversary and from January 1986 we are taking over publication of the Journal of the Society of Community Medicine, **Public Health**.

So if you are out of touch with the journals we publish – or would like to see copies of our new ones as they are published – we would be pleased to send you sample copies. Simply tick in the boxes the journals you require, add your name and address in the space provided and return to me at the address shown. Please note that for readers in the United Kingdom, no stamp is required – simply mark the envelope FREEPOST.

THE MANAGEMENT OF AIDS PATIENTS

David MILLER, Jonathan WEBER and John GREEN

David Miller is a Clinical Psychologist at St Mary's Hospital in London. **Jonathan Weber** is a Wellcome Research Fellow in the Jefferis Research Wing at St Mary's Hospital. **John Green** is a District Clinical Psychologist at St Mary's Hospital.

Publication: January 1986 200pp

hardcover 0 333 40465 3 £25.00 paperback 0 333 40466 1 £9.95

- ◆ Urgently required information for health-care professionals everywhere
- ◆ This book cuts through the sensational aspects of the disease to give solid advice and information to those involved in patient care
- ◆ The editors and many of the contributors come from St Mary's Hospital, London one of the foremost centres in Britain for the treatment of AIDS patients
- ◆ All the chapters are written from a problem orientation, emphasising practical, clinical approaches to clinical problems.

The Management of AIDS Patients provides essential management information for all professional groups likely to be involved with AIDS patients.

Macmillan Press, Houndmills, Basingstoke, Hampshire U.K.

OFFPRINTS

Twenty-five offprints are supplied free of charge to the principal or first named author of all papers and contributions appearing in this Journal. Additional offprints may be ordered by the authors on the form accompanying the proofs, which should be returned direct to the Publishers. Authors are reminded that adequate supplies for all authors should be included in the order, as offprint orders can only be accepted before the Journal is printed. Subsequent orders involve reprinting, and charges are necessarily higher. Offprints are sent by airmail to all destinations outside Western Europe at no extra cost. The Publishers are pleased to help with any enquiries about offprint orders or post-publication reprints.

SUBSCRIPTION PROBLEMS?

Most subscription problems are actually a need for information. It is hoped that the following will answer any questions you may have.

1. Please attach a current mailing label when sending an enquiry about your journal subscription (or at least the exact name and address to which the journal is sent).
2. All subscriptions are available on current volume basis only. If you send a subscription order in the middle of the year, issues already published in that year's volume will be mailed to you automatically.
3. A subscription renewal notice will be sent to you approximately three months prior to expiry. Prompt renewal ensures an uninterrupted supply of your journal issues.
4. If you wish to notify us of a change of address, it is most important that you send a copy of your most recent mailing label AND your new address. Please allow 6-8 weeks for processing of your address change. Please send this information to:

**Macmillan Journals
Farndon Road
Market Harborough
Leicestershire
LE16 9NR, UK.**

Our objective is to provide the best possible service to you. Following the above procedures will enable us to do this. Your assistance will be appreciated.

1925 ————— 1985

THE Postgraduate Medical Journal *is sixty years old*

All this time it has maintained its place in the forefront of clinical medical education and it continues to provide an important monthly compendium of clinical research and practice.

The Journal includes review articles with extensive up-to-date bibliographies as guides to further reading, reports on symposia and surveys on clinical problems and publishes correspondence, book reviews, and the diary of forthcoming events. **All essential information to the Medical Postgraduate.**

In 1925, when the Journal was launched there were approximately 2000 medical publications – today the figure is nearer 22,000. The special 60th birthday issue will be, in particular, a "milestone" issue, looking back over the past sixty years but as always the Journal will maintain the same standards of editorial excellence and completeness of coverage that have ensured the Journal's survival in the past and will speed it on its way through the next sixty years.

If you would like to receive a free copy of the 60th edition of **Postgraduate Medical Journal** and subscription details please write to: **Alison Baverstock, Macmillan Press, Basingstoke, Hampshire RG21 2XS.**
