THE MANAGEMENT OF

AIDS

PATIENTS

DAVID MILLER, JONATHAN WEBER AND JOHN GREEN

The Management of Aids Patients

provides essential management information for all professional groups likely to be involved with AIDS patients.

- **Urgently required information for health-care professionals everywhere**
- **This book cuts through the sensational aspects of the disease to give solid advice and information to those involved in patient care**
- **The book emphasises practical and clinical approaches to clinical problems**

The book gives advice on the relative degrees of risk of infection from the virus which health professionals will face in personal contact, and the appropriate precautions required to minimise their personal risk. Diagnostic procedures are also indicated, as well as guidance on counselling, and the advice it is appropriate to give to those most at risk in the community about reducing their likelihood of contacting the virus.

CONTENTS

- 1 The Clinical Management of AIDS and HTLVIII infection *Jonathan Weber and Anthony Pinching*
- 2 Immunology: Immunological Profile, Pathogenesis and the Role of Diagnostic Tests *Anthony Pinching*
- 3 Virology *Don Jeffries*
- 4 Venereology *Greta Forster*
- 5 AIDS-related Problems in the Management of Haemophilia *Peter Kernoff and Riva Miller*
- 6 Nursing *Anthony Levi, David Houghton and Elizabeth Jenner*
- 7 Psychology, AIDS, ARC and PGL *David Miller*
- 8 Counselling HTLVIII Seropositives *John Green*
- 9 The Worried Well *David Miller*
- 10 Reduction of Risk in High-risk Groups *John Green*
- 11 Hospital Counselling, Structure and Training *John Green and David Miller*

Hardback 0 333 40465 3 £32.00

Paperback 0 333 40466 1 £12.95

LIVING WITH AIDS & HIV

BY DAVID MILLER

A practical manual for people with AIDS, for those showing HIV antibody positive, for their carers and counsellors.

Living with AIDS and HIV gives an outline of the medical aspects of the condition and then deals with practical and psychological adjustments. Who should be told and how; how to cope with anxiety and depression; recommended adjustments in sexual activity; advice on preventing the spread of infection.

THE AUTHOR

David Miller is uniquely well qualified to write this book. A recognised authority on the psycho-social management of HIV infection and all its related disorders he has worked in this field for the past four years at St Mary's Hospital, London and at the Middlesex Hospital Medical School.

CONTENTS

- Introduction
- 1 The Virus and its Spread
 - 2 The Clinical Manifestations of HIV Infection
 - 3 Coming to Terms with Diagnosis and being Seropositive
 - 4 Practical Adjustments *Work - Safer Sex - Infection Control - Health Boosting - Finance*
 - 5 Psychological Adjustments *Uncertainty - Anxiety - Depression - Obsessive States - Suicide*
 - 6 Relationship Adjustments *Lovers and Spouses - Family - Friends - Bereavement*
 - 7 Summary and Reports from Veterans *Summing Up Index*
