

The Influence of New Technology on Medical Practice

Edited by J P Paul, A B McCrudden and P W Schuetz

The sixth in a series of volumes reporting the proceedings of the Strathclyde International Seminars on Bioengineering, organised by the Bioengineering Unit at the University of Strathclyde, Scotland.

In 40 chapters, this volume explores a range of research programmes being conducted in the United Kingdom and Austria relating to the utilisation of recent developments in instrumentation and analysis, and their application to current medical practice.

The contributions cover important developments in:-

- Bioengineering education
- Research in biomechanics
- Artificial organs
- New technologies for diagnosis and therapy

Contents include:-

Modelling of muscle mechanics in the normal and the disabled J P Paul.
Image analysis: Uses and abuses S P Barton.
Artificial liver support systems: Design of preclinical evaluation programmes C J Ryan, M Aslam, J Cohen and J M Courtney
Novel approaches to blood purification E Behm, D Falkenhagen, H Klinkmann and J M Courtney.
Clinical applications of lasers-selective absorption J H Evans, W H Reid, H S Gouw, C A Vance, J H Newstead and M Sobey.

Blood flow measurements with ultrasonic techniques: Experiences with a novel multichannel diagnostic method using hard wired fast Fourier transformation P Plundner and A Stadler.
Isolated cells as experimental models R H Burdon.
Dynamic EEG mapping: A new method in brain research G Plurtecher.
The use of monoclonal antibodies in the food industry and agriculture A A Candlish, J E Smith, W H Stimson and I A Goodbrand.
Monoclonal antibodies for drug targeting in cancer therapy R W Baldwin and V S Byers.

NEW FROM MACMILLAN

Progress in Surgical Pathology, Volume VIII

Edited by Cecilia M.
Fenoglio-Preiser, M.D.,
Marianne Wolff, M.D., and
Franco Rilke, M.D.

1988 275 pages ISBN 0-02-336900-0 £60.00
Worldwide authorities integrate classical
clinical pathologic correlations within the
discipline of surgical pathology.

Tumor Diagnosis by Electron Microscopy, Volume II

Jose Russo, M.D. and
Sheldon C. Sommers, M.D.

1988 250 pages ISBN 0-02-404910-7 £56.00
Organized by systems, this contributed
volume covers a broad range of organo-
typic pathology and electron micros-
copy. Generously illustrated, thoroughly
up-to-date.

Urologic Pathology with Clinical and Radiologic Correlations

Ayten O. Someren, M.D.

1989 784 pages ISBN 0-02-413750-2
Expected price £82.00

This volume provides detailed, compre-
hensive coverage of both neoplastic and
non-neoplastic disease processes involv-
ing each urologic organ system, and fea-
tures a unique chapter devoted to renal
transplantation.

Diagnostic Neuropathology

Julio H. Garcia, M.D.

1988 250 pages ISBN 0-02-340471-X £56.00
A comprehensive, heavily illustrated
guide to diagnosis through microscopic
evaluation of tissue samples that also
covers such procedures as reporting and
filing a diagnosis in neuropathology, and
handling biopsies.

Digestive Disease Pathology, Volume I

Edited by Shaw Watanabe, M.D.,
Marianne Wolff, M.D., and
Sheldon C. Sommers, M.D.

1988 275 pages ISBN 0-02-424570-4 £36.00
This internationally contributed volume
provides advances in diagnostic and
treatment procedures, focusing on such
topics as GI tract tumors, gastric cancer
cells, and varioliform gastritis.

Neurourology and Urodynamics: Principles and Practice

Editors:

Subbarao V. Yalla, M.D.; Edward J. McGuire, M.D.;
Ahmad Elbadawi, M.D.; Jerry G. Blaivas, J.D.

0-02-430870-6 • 1988 • 533 pages • £70.00

Written by leading authorities in the field, this book comprehensively covers all important aspects in detail, including in-depth coverage of the basic sciences. The book presents an analysis of urodynamic and neurourologic disorders, as well as pharmacology, rehabilitation, and other methods of management.

Urologic Pathology with Clinical and Radiologic Correlations

Edited by

Ayten O. Someren, M.D.

0-02-413750-2 • 1989 • 784 pages • Expected price £82.00

This important new book presents a detailed and comprehensive coverage of both neoplastic and non-neoplastic disease processes involving each organ system. Detailed clinical and radiologic correlations with pathology are provided in each chapter. A unique chapter on renal transplantation makes this book especially timely and appealing to nephrologists.

NEW FROM MACMILLAN

Radiology of Facial Injuries

SECOND EDITION

Volume I

Edited by Kenneth D. Dolan, M.D.,
Charles G. Jacoby, M.D.
and Wendy R.K. Smoker, M.D.

0-02-329941-X

1988 • 103 pages • £42.00

This highly illustrated atlas provides a comprehensive look at the radiological elements of facial injury, as well as guidelines for diagnosis of traumatic injuries of the face and neck. Anatomic and pathologic background to evaluate facial injuries is provided, as well as new information on CT correlative views and concepts.

An Atlas of Brachytherapy

*Principles, Techniques,
and Clinical Applications*

Basil S. Hilaris, M.D.,
Dattatreya Noor, M.D.
and Lowell L. Anderson, Ph.D.

0-02-354770-7

1988 • 326 pages • £56.00

Extensively illustrated, this book covers all aspects of brachytherapy in a unique format. Textual material is placed adjacent to illustrations and it provides a quick and easy reference to the practical management of malignant diseases.

Nuclear Diagnostic Imaging

*Practical Clinical
Applications*

E. Edmund Kim, M.D. and
Thomas P. Haynie, M.D.

0-02-363750-1

1987 • 502 pages • £55.00

In this practical, clinically oriented reference, emphasis is on state-of-the-art scintigraphic techniques. It covers their principles, their applications in clinical problem-solving, and their correlation with other diagnostic modalities used in clinical medicine.

MORTALITY, MORBIDITY and HEALTH STATISTICS

by Michael Alderson

Michael Alderson, who sadly died in 1988, was probably the best-known medical statistician in the UK. His position as Chief Medical Officer at the OPCS placed him at the apex of the UK government health statistics gathering and reporting system. This new book represents a distillation of his lifetime of experience in epidemiology. It is the definitive guide to international medical statistics both for those who use them and for those who generate them.

Contents

- Introduction to Medical Statistics
- Mortality
- Legal Abortions
- Cancer
- Congenital Malformations
- Hospital Discharge
- Infectious Diseases
- Morbidity treated in General Practice
- Sickness Absence and Occupational Disease
- Health Surveys at National Level
- Monitoring the Public Health
- References, Index

Each of the areas discussed in the above chapters is examined under the following headings: primary information source, validity, statistical techniques, presentation, publications (worldwide), and uses.

December 1988

NEW Journals from **Macmillan**

Applied and Theoretical Electrophoresis

This official publication of the Electrophoresis Society aims to facilitate communications between researchers employing electrophoretic methods and those using the methods in a variety of applied settings.

*ISSN 0954-6642 Six issues per volume.
First issue - autumn 1988.*

Journal of Dermatological Treatment

A forum for advances in the medical and surgical treatment and management of skin disorders. Published jointly with Martin Dunitz Limited.

*ISSN 0954-6634 Six issues per volume.
First issue - early 1989.*

European Journal of Internal Medicine

The official journal of the European Association of Internal Medicine. Papers include original observations based on experimental studies and clinical research, hypotheses exploring important concepts, and review articles.

*ISSN 0953-6205 Six issues per volume.
First issue - autumn 1988.*

European Journal of Clinical Nutrition

Publishes papers on basic and theoretical aspects of nutrition, relations of function to nutritional status, nutritional causes and effects of disease, community nutrition and education, and determinants of eating behaviour.

*ISSN 0954-3007 Monthly.
Published by Macmillan from July 1988.*

Food Sciences and Nutrition

Covers the physiological effects of foods as they relate to the work of food scientists and nutritionists co-operating to produce the food in our diet.

*ISSN 0954-3465 Quarterly.
Published by Macmillan from July 1988.*

International Journal of Obesity

Published in collaboration with the Association for the Study of Obesity and the North American Association for the Study of Obesity.

*ISSN 0307-0565 Bi-monthly.
Published by Macmillan from July 1988.*

Phlebology

Publishes papers on all aspects of disease of the venous system, case reports, and descriptions of special techniques of investigation and treatment.

*ISSN 0268-3555 Quarterly.
Published by Macmillan from July 1988.*

Community Dental Health

Publishes reviews and original communications on a wide range of topics, including dental health services research, preventive dentistry, dental health education, and clinical research with special emphasis on the care of special groups.

*ISSN 0265-539X Quarterly.
Published by Macmillan from July 1988.*

Journal of the Irish Colleges of Physicians and Surgeons

Publishes original papers on topics of medical interest to all branches of the medical profession.

*ISSN 0374 8405 Quarterly.
Published by Macmillan from July 1988.*
