

of hyperthyroidism and pulmonary tuberculosis may present, without a period of observation, problems of difficulty even to an expert clinician: (2) hyperthyroidism and pulmonary tuberculosis tend to be antagonistic. At any rate they do not tend to occur in the same patient.

Why this should be so it is difficult to explain. It opens up the whole problem of the ductless glands in their relation to immunity. Whether hyperactivity of the thyroid renders one immune to phthisis is a problem of considerable interest. Clinical experience tends in that direction.

POST-GRADUATE NEWS.

THE following Special Courses will be held during November:—

Royal Waterloo Hospital, Waterloo Road, S.E.1.

A Course in Medicine, Surgery, and Gynæcology will be given from November 2 to 21, occupying the afternoons and some mornings, with demonstrations and lectures. Fee £3 3s.

Gordon Hospital, Vauxhall Bridge Road, S.W.1.

A Course in Proctology occupying each afternoon for one week, November 2 to 6 inclusive, will be given at this Hospital. Fee £1 1s.

West End Hospital for Nervous Diseases, Welbeck Street, W.

A Clinical Meeting will be held on November 5, at the Paignton Hospital. Tea will be served at 5 p.m.

REVIEW.

EPIDEMIOLOGICAL ESSAYS. By F. G. Crookshank, M.D., F.R.C.P. Published by Kegan Paul, Trench, Trübner and Company, Ltd., London. Price 7s. 6d.

Dr. Crookshank is always interesting and his views, if sometimes differing from those

expressed by others, are illuminating and arrest the reader's attention.

Among the subjects treated by the author in this book are "Some Problems of Influenza ; the Treatment of Encephalitis Lethargica ; the 'Trousse-Galants' of 1528 and 1545 ; Acro-dynia, 'Botulism' and Heine-Medin Disease ; Airs, Waters and Places ; and the Mortality of Pneumonia."

Speaking of the peculiar pestilential fever of 1545 and 1546 that prevailed in Savoy and so far north as Cambrai, he states : "Paré's description, which is more effective than that of Sander, leaves me with little doubt that this trousse-galant like that of 1528-29, was a severe if peculiar influenza, and marked by neurotoxic phenomena."

Again, writing of Acro-dynia, he remarks : "Acro-dynia, it may be said, represents a neuritic type of the nervous cases and epidemics that invariably precede, accompany or follow, in some place or places, epidemic and pandemic influenza."

A truly refreshing book, well worth perusal.

THE FELLOWSHIP OF MEDICINE.

1, WIMPOLE STREET, LONDON, W.1.

Members of the medical profession who are interested in or desirous of obtaining post-graduate work are invited to become Members of the Fellowship of Medicine.

The subscription is 10s. a year.

All Members of the Fellowship of Medicine receive, post free, the POST-GRADUATE MEDICAL JOURNAL, which contains lectures, reports, and editorial notes, together with a full list of Special and other Courses taking place in the following months. In addition, Members desiring it are supplied each month with a list of lectures and demonstrations taking place in London, whether arranged by the Fellowship of Medicine, or by the University and other associations. Members are entitled to vote at the Annual General Meeting.

The Secretary's office will try as far as

possible to arrange for any special post-graduate work that may be desired by a Member of the Association, apart from and in addition to the advertised work in the POST-GRADUATE JOURNAL.

The following advantages are offered to Members of Medical Societies which are affiliated to the Fellowship of Medicine :—

(1) Members of affiliated Societies may become Associates of the Fellowship of Medicine at a fee of 7s. 6d. per annum.

(2) Associates are entitled to receive monthly the POST-GRADUATE MEDICAL JOURNAL, and also the Special Announcements sheets (if desired).

(3) Associates are entitled to a reduction of 10 per cent. on the fee of any post-graduate Course organized by the Fellowship of Medicine.

The following Medical Societies have joined the Fellowship of Medicine :—

Cardiff Medical Society.
Colchester Medical Society.
Doncaster Medical Society.
Eastbourne Medical Society.
Glasgow Southern Medical Society.
Ipswich Clinical Society.
Leicester Medical Society.
North Staffs Medical Society.
Norwich Medico-Chirurgical Society.
Torquay and District Medical Society.
St. John's Hospital Dermatological Society.
York Medical Society.
Medical Practitioners' Union.
Society of Medical Officers of Health.

We beg to remind our readers that a subscription of ten shillings per annum entitles them to become *Members of the Fellowship of Medicine*. Every Member gets this Journal post free for the year of his subscription, and he also receives any "Special Announcements" of lectures, demonstrations, &c., taking place at the various hospitals, general and special. Subscription for the Journal only is 6s. per annum.
